Saigon Group To Arrive In Paris Sunday

PARIS (AP) — South Vietnamese officials said today their entire peace conference delegation including Vice President Nguyen Cao Ky will arrive in Paris Sunday.

Officials of South Vietnam's diplomatic mission prepared a big-scale reception for Ky and his team at Orly Airport. The French governmest prepared massive security precautions.

Ky's decision to accompany Ambassador Pham Dang Lam, who will head the delegation at the conference table, was a sudden change of plans. He had intended following Lam by about one week.

The arrival of South Vietnam's team will clear the way for the start of the expanded peace parley. But it is expected to bog down in procedural disputes as soon as it starts.

Ky will be South Vietnam's chief strategist for the conference. Officially he is being described as an adviser, but in fact he will carry the authority of the Saigon government to mastermind the presentation of his country's case.

Soon after he and Lam get to Paris they are expected to meet with Ambassador W. Averell Harriman and Cyrus R. Vance, who lead the U.S. delegation.

The Americans are to consult with the South Vietnamese on arrangements under discussion for the formal talks in which North Vietnam and the Viet Cong's National Liberation Front will join. Vance already has met twice this week with the deputy chief of North Vietnam's delegation, Col. Ha Van Lau, to discuss arrangements for getting the peace talks rolling.

South Vietnamese authorities meanwhile rallied local sympathizers in the hope of staging a spectacular reception for the team from Saigon. Many thousands of Vietnamese live in Paris, and 200 of them showed up to cheer last month when the team's NLF leader, Mrs. Nguyen Thi Binh arrived.

The pro-Saigon Vietnamese prepared their banners and flags today. Stacks of them were in the consulate, hailing the arrival of the delegates and exhorting them to banish all thoughts of "peace at any price."

Negative Decision Reached

Nixon Won't Send Adviser To Paris

BULLETIN

NEW YORK (AP) — W. Averell Harriman said today, after conferring with President-elect Richard M. Nixon, that he is confident Nixon will send a personal observer to the Paris talks and will replace the two principal American negotiators soon after taking office.

NEW YORK (AP) — President-elect Richard M. Nixon has tentatively decided against sending a personal representative to the Paris peace talks, but a conference with Ambassador W. Averell Harriman, chief U.S. negotiator at the talks, might change his thinking.

Ronald Ziegler, Nixon's press spokesman, said a negative decision had been reached on sending a Republican observer to the talks aimed at ending the Vietnam war.

However, Harriman said in Washington Wednesday that such an observer "would be very welcome," and pointed out that "the main burden of the negotiations will fall on the next administration."

Ziegler said he expected the matter of a Nixon representative to come up today at a conference involving Nixon; Harriman; Dr. Henry A. Kissinger, who will be Nixon's assistant for national security affairs, and Robert Murphy, a retired diplomat serving as Nixon's liaison man with the Johnson administration.

Harriman also ruled out any possibility that he or his deputy at the talks, Cyrus R. Vance, would continue their roles after Nixon takes office Jan. 20.

In a meeting with newsmen after briefing President Johnson on the talks, Harriman said reestablishment of the demilitarized zone would be a goal of the talks when they reach substantive issues.

Nixon moved Wednesday to clarify the future status of Chief Justice Earl Warren, who had resigned last summer contin-

As Personal Guests Of Nixon

Ohio Girl, 13, And Family Will Attend Inauguration

DESHLER, Ohio (AP) — Vicki Cole says that somehow her entire family will get to Washington for the inauguration of President-elect Richard M. Nixon.

Vicki is the 13-year-old girl who held up the "Bring Us Together" sign which gave Nixon the idea for his inaugural parade theme "Forward Together."

Nixon invited Vicki and her family to be his personal guests at the inauguration Jan. 20. She will be accompanied by her father, the Rev. David Cole, minister of the Deshler United Methodist church; her mother; two sisters, Brenda, 14, and Renee, 11, and a brother, Gregory, 7.

"We're all pretty excited," Mrs. Cole said. "It was a personal letter. I guess that's the most exciting thing."

Vicki said, "The other kids don't envy me, but they're happy for me. And they're happy for our town especially."

She said she originally had wanted Democratic Sen. Robert F. Kennedy to be president, but by the time Nixon appeared at this small northwestern Ohio town on a whistlestop tour late in October, Vicki was one of about 15 "Nixon girls" at his rally.

"I really believe Mr. Nixon is the one who can bring this country back together again," she said Wednesday.

It was at that rally that Vicki picked up the "Bring Us Together" sign off the street. She had lost her own sign which read: "LBJ Convinced Us to Vote Republican."

The person who originated the poster which ended up in Vicki's hands has not revealed himself. About 8,000 were at the rally.

"I don't even think he saw it," Vicki said.

Diplomatic Pressure

U.S. Presses To Prevent New Israel-Arab Clashes

Discussion Held With Both Sides

'Serious Concern' Noted In Violation Of Cease-Fire Line

WASHINGTON (AP) — The United States is trying urgently through diplomatic pressure to prevent further escalation of the Israel-Arab border clashes which have intensified the Middle East crisis in the past few days.

The State Department called in the Israeli and Jordanian ambassadors separately late Wednesday to declare that "violations to the cease fire line by both sides in the past few days are a matter of serious concern to us."

Johnson administration officials privately expressed most concern over Israel's use of planes Tuesday against targets in northwest Jordan where Jordan and Iraqi forces are stationed.

At the same time a State Department spokesman prodded the Soviet government to use its influence with the Arab states —for which it is the major arms supplier—to try to move the situation toward a peaceful settlement.

Press officer Robert J. McCloskey responded to inquiries about an editorial in the Soviet Communist party newspaper Pravda saying that Moscow was interested in a political solution to the crisis.

"We have noted the Pravda article which touches on a number of points," McCloskey said. "What we are looking for, however, is concrete evidence that the Soviets are exerting their influence toward peace in the Middle East. Peace in the Middle East is in everybody's interest."

Officials added that Soviet arms shipments into the area are continuing but they have not had evidence of comparable Soviet exertions in the interest of peace.

The United States itself is supplying arms to both Israel and Jordan, which has traditionally maintained relatively close ties with the Western powers.

McCloskey said that Israel Ambassador Yitzhak Rabin and Jordanian Ambassador Abdul Hamid Sharaf were summoned separately to the State Department Wednesday afternoon and told of deep U.S. concern over events in the Mideast.

U.S. officials indicated the two ambassadors each blamed the other side for starting the latest round of strikes across the cease-fire line.

Militants Hit 3 Campuses In Protests

2 Universities In New York And San Francisco Flare

By The Associated Press

Protests by small bands of militant students struck two universities in New York City Wednesday while demonstrations continued at San Francisco State College.

Although 1,000 persons—the largest group of demonstrators yet—disrupted San Francisco State classes with chants of "Pigs off Campus! Shut it down!" there was little violence. Police herded them away.

In New York a group of 20 Negro students on the Bronx campus of Fordham University seized a dean's office temporarily and won a promise that no action would be taken which would result in the loss of federal aid to Negro students for nonviolent dissent.

A predominantly white group of sleep-ins at the Jesuit institution today demanded that 20 per cent of future freshman classes be enrolled from the Negro and Puerto Rican community.

About one per cent of the school's present enrollment of 6,000 are Negro.

At New York University talk by a South Vietnamese diplomat and the executive editor of the New York Times were prevented Wednesday night by a group of 60 obscenity shouting demonstrators.

Nguyen Huu Chi, South Vietnam's permanent observer to the United Nations was draped with a Nazi flag and had a pitcher of water poured on his head by the rowdy students, some of whom waved Viet Cong flags.

He remained calm and was escorted from the hall where he was to have addressed the Political Forum of the university.

In Wake Of Violence

24-Hour General Strike Hits Rome

ROME (AP) — A 24-hour general strike hit Rome today as Premier-designate Mariano Rumor resumed talks to form a new Italian government.

The strike came after two days of violent demonstrations by workers and students in every major Italian city. The workers want higher wages. The students want reforms in the educational system, and both are protesting the police killing of two Sicilian farmhands during a strike demonstration Monday night.

Union leaders predicted 1.5 million persons in the Rome area would join in the strike and bring the city to a standstill. Schools were closed "to avoid unpleasantness to their pupils," the school board said.

The stock exchange in Milan, Italy's industrial and financial capital, was closed for two days.

Students marched in Naples, Rome and Milan again Wednesday night, shouting antipolice slogans and causing major traffic jams. They painted "Police Equals Gestapo" in red on the central police station in Naples.

The police remained out of sight in accordance with orders from Premier Giovanni Leone's caretaker government not to create further incidents. The Communist party also passed the word to its members and sympathizers to calm down and avoid violence.

Communist leaders were said to be worried that the riots would turn into anarchy, and the army and the police would seize control of the government and drive the Communist party underground.

Like the French Communists last May, the Italian Communists are concerned because an element they don't control—the

Increase Of 27% Noted In War Dead Over Last October

SAIGON (AP) — The number of Americans killed in action during the first month of the halt in the bombing of North Vietnam increased 27 per cent over U.S. combat dead in October, figures released by the U.S. Command showed today.

But they were still only about half what they were during fighting earlier this year, particularly during enemy offensives in February, May and August.

U.S. headquarters in its weekly report said 228 Americans were killed in action last week. It was the highest weekly toll in two months, and it raised to 681 the number of U.S. troops killed in the four weeks after President Johnson halted the bombing of North Vietnam. Power Lines Fall As Winds Strike District

High winds that hit the tri-state district this morning with the advent of a brief, heavy snowstorm were blamed for breaking power lines and interrupting service briefly in West End, East End and an area near Midland.

The Ohio Power Co. said the stiff winds whipped together two 4,000-volt lines on Shadyside Ave., causing an outage that affected sections of lower Lisbon St., W. 9th St., W. 8th St. and Shadyside Ave. The power failure knocked radio station WOHI off the air from 9:22 to 10:40.

Ohio Power said a similar wind - caused incident in East End interrupted power briefly at the new East Elementary School and a few homes nearby.

As National Party Chairman

GOP Governors' Support To Retain Bliss Growing

PALM SPRINGS, Calif. (AP) — Strong support for the retention of Ray Bliss as GOP national chairman is surfacing among Republican governors in discussions on the incoming administration's relations with the states.

Recent reports that President-elect Richard M. Nixon is thinking of replacing Bliss with a more dramatic figure as head of the party organization machinery, caught most governors by surprise.

Three early arrivals at the conference, Govs. Ronald Reagan of California, Daniel J. Evans of Washington and Tom McCall of Oregon, had words of praise for the grass roots job Bliss did before Nixon's own men took over management of the successful presidential campaign.

Evans, keynoter at the Miami Beach, Fla., convention, said he thought Bliss had done a "splendid job" during the campaign.

"He minimized the differences between Republicans and maximized the local efforts to support the national ticket," Evans said. "I have a great admiration for his abilities and I hope that he is not going to be replaced."

McCall said in a separate interview that he and Bliss worked closely during the campaign and he was surprised at removal talk.

"I don't quite understand how a man who has been successful in electing a president should be thrown out on his ear," McCall said.

Reagan told a news conference he thinks Bliss did a "wonderful job." But the California governor, like others of his colleagues, made it clear that if Nixon wants a replacement, he will get no real argument out of the governors.

Western Republican governors were saying, without exception, that Nixon must name a Westerner for secretary of interior. Publicly they were plugging Gov. Tim Babcock of Montana, defeated in the November election. Few privately expected Nixon to Pick Babcock.

One of Nixon's top aides said he expected no Cabinet announcements in a brief talk the

gent upon Senate confirmation of a successor—an event that never occurred at the 1968 congressional session.

Ziegler announced that Nixon telephoned Warren Tuesday and, in a 15-minute conversation, urged Warren to remain on the job until the end of the Supreme Court's current term next June, "in order to avoid serious disruption of the work of the court." Ziegler said Warren agreed to serve until then.

Also announced was Nixon's appointment of Roy L. Ash, president of Litton Industries, Inc., to work with him and members of the incoming administration during the transition period "on matters of management and efficiency."

No announcement of Cabinet-level appointments is expected before the weekend, but in Sacramento, Calif., Lt. Gov. Robert H. Finch said he had been offered the posts of secretary of health, education and welfare and as head of another department. He said he had reached a decision but that it would be announced by Nixon.

The President-elect flies to Los Angeles to attend a dinner tonight honoring James Francis Cardinal McIntyre, Roman Catholic archbishop of that city. He will address a conference of Republican governors Friday at Palm Springs, Calif., before returning to New York Saturday.

Nixon will go to Palm Springs, Calif., Friday to address a conference of Republican governors before returning to New York Saturday.

Nixon appointed six men Wednesday to head special task forces on inflation, international economic policy, education, crime and law enforcement, health and voluntary action.

— Alan Pifer, president of the Carnegie Foundation, to head the education task force. Pifer, 47, a native of Boston, is known to be a strong advocate of growing federal commitment to education.

— Evelle J. Younger, district attorney for Los Angeles County, to head the task force on crime and law enforcement. Younger, 50, a native of Nebraska and a former FBI agent, has served as a municipal and superior court judge in California and as a city prosecutor.

— Gottfried Haberler, a professor of international trade at Harvard University, to head the task force on international economic policy. Haberler, 68, a native of Austria, has been a lecturer and professor at several universities, worked with the League of Nations in Geneva and was chairman of the National Bureau of Economic Research.

— John Dunlop, a professor of economics at Harvard, to head the task force on health. Dunlop, 54, a California native, served on the President's Committee for Equal Employment Opportunity.

— David Meiselman to head the task force on inflation. Meiselman is associated with the department of economics at Macalester College in St. Paul, Minn.

— Richard C. Cornuelle, director of the Center for Independent Action in Manhattan, to head the task force on voluntary action.

Dr. Paul W. McCracken, a professor at the University of Michigan Graduate School of Business Administration, was selected to head the Council of Economic Avisers in the new administration.

The Wilbur Smith & Associates engineering firm of New Haven, Conn., retained by West Virginia to do a preliminary study for the new span, is about 90 per cent complete with the survey, Walter Brandon of the firm announced.

The Chester Bridge has been restricted to auto traffic since earlier this year due to a weakening condition in cables, and an engineering firm has recommended its replacement.

Attending the SWATS meeting were Charles Taylor of Chester, president of the North Hancock County Development Association; Francis Lang of the Chamber of Commerce; Michael Turk, president of the Community Improvement Corp., and E. R. Chandler, executive manager of the Chamber.

The Midland Lions and Rotary Clubs will hold a joint meeting tonight at 6:30 at Western Beaver School. After dinner at the cafeteria, members will tour the new school facilities. George Mastervich is program chairman.

Group Sells TV Cable Unit

LISBON—Columbiana CATV, Inc., owned by the Neptune Broadcasting Co. of Steubenville and Thomson - Brush - Moore newspapers, Inc., of Canton, has sold its Lisbon system to the Lisbon Cable TV Corp. of 640 Walnut St., Coshocton.

The sale price was not disclosed.

The transaction included a 2.9-acre tract in Section 23 of Center Township — the old Steubenville Pike hilltop site of the 40-foot master tower and equipment building — and approximately 12 miles of cable.

Work on the local system began about two years ago and service was initiated last March. The system offers 12 channels, including three UHF stations in Youngstown, and has approximately 600 subscribers.

A warranty deed recorded Monday in the office of John P. Wargo, Columbiana County recorder, shows title to the tower site was transferred Nov. 29 to Lisbon Cable TV Corp.

Oliver J. Hensler, who operates the Columbiana collection agency at 40 N. Park Ave. on the Square, is the local manager of the Coshocton - based firm, a subsidiary of Tower Antenna, Inc.

The realty transfer tax paid by the grantor was $1.20, which, at the rate of $1 per $1,000 valuation, means the real estate sold for approximately $1,200. Columbiana CATV bought the tract on the Harris farm for $1,000 in May 1957.

Ohioville Patrolman Anthony Ross Jr. and Special Officer Richard Felekey directed traffic on Route 168 while the work was being done.

president-elect will make to the governors Friday night at a formal state dinner. Every GOP state executive, and those who were elected in November but have not yet taken office, expected to participate in confidential talks with the man who will move into the White House in January.

Nixon set aside four hours, stretching into the early morning, for these discussions.

Gov. Spiro T. Agnew of Maryland, the vice-president elect, was on hand to practice up on his assignment as the new administration's top liaison man with the governors.

The governors continued to speculate that some Cabinet appointment might go to one of them. But every prospective appointee was coy about it.

Gov. David Cargo of New Mexico, who pumped for Rockefeller against Nixon for the presidential nomination, brought up the issue of block grants to the states for federal aid programs.

This dream of the governors, along with federal sharing of revenues with the states, was expected to get a sympathetic hearing from Nixon. But whether the new President could find any practical way to work out these programs remained doubtful even in the governors' minds.

Education For Out-Of-Staters

State Finance Director Howard L. Collier's suggestion that state support for out-of-state students at state universities be discontinued will surely bring mixed reactions.

Most taxpayers doubtless will greet the proposal with varying degrees of approbation, but the administrative staffs of state universities and many students will look upon the idea with considerable disfavor.

TAXPAYERS ARE BEING ASKED to carry an increasing burden in support of higher education in Ohio, and from a pure monetary point of view it would seem only fair that they not be asked to share the cost of the out-of-state student.

Under Mr. Collier's proposal, however, there is no promise of any saving in educational funds. Support now going to out-of-state students apparently would be used for grants-in-aid to needy Ohio youths whose parents cannot afford to send them to college, and for creation of a high-risk loan pool guaranteed 100 per cent of the state.

Out-of-state students comprise only about 10 per cent of the total enrollment in the state universities.

State universities now receive an average of $800 to $900 in state support for each student, but fees for the out-of-state student are greater at most state universities than those for Ohio students. As a matter of fact, Kent State University recently increased fees for students from other states and countries.

From an academic and social point of view, university administrative staff, faculty and many students will argue, quite convincingly we believe, that it is good to have a modest percentage of students from out of the state.

They bring a wholesome mixture of geographical backgrounds and views, cultures and customs to the campus that tend to add breadth to the total educational experience of the Ohio student.

Just how much the exposure to influences brought into the state's educational system from the outside is worth to Ohio taxpayers is debatable. No one should doubt that it has a value to the student himself.

THE REAL QUESTION revolves around the extent to which the Ohio taxpayer has responsibility in helping to share the cost of an out-of-state student's education.

Morally, of course, he has none. Humanitarily and sociologically, he may find it exceedingly beneficial in the long run.

We have always held the view that state higher education would be considerably less costly if those who could well afford to do so would avail themselves of the opportunity to enroll in private colleges and universities.

Valuable Time Is Slipping By

Jules Verne wrote his "Twenty Thousand Leagues Under the Sea" in 1869 and foresaw sailing under the polar ice cap, going from submarines to the ocean floor via water locks and using compressed air guns to hunt sea life. All of these dreams, and more, have become reality.

Technology is now geared up to make more dreams of the sea become reality but several problems are holding up progress. At the top of the list is a lack of money.

OCEANOGRAPHY HAS NEVER been a favorite project of the government and only recently has it been allocated enough money to make a concerted attack on dislodging secrets from the sea.

Of the $448 million authorized for oceanography in fiscal 1968, about half went to the Defense Department, mainly the Navy.

The remainder was scattered among 22 bureaus in 10 federal departments and agencies. The bureaus, in turn, funneled money into scores of marine science research projects conducted by private industry and by universities.

It is expected the construction of a $20 million oceanographic laboratory on Virginia Key in Florida by the Department of Commerce will help to pull the federal program together.

Another problem is the legal question: Who owns the ocean bottom? The traditional concept of the freedom of the seas and national control of territorial waters apply to the surface but not the depths.

The United Nations International Law Commission tackled the problem and drafted a treaty in 1958, which has since been ratified by 87 countries, recognizing that maritime nations had exclusive rights to explore the continental natural resources.

The treaty, by implication, permitted the extension of sovereignty over a continuous stretch of the seafloor as far out as it is possible to exploit natural resources.

The fear that wealthy countries could control the ocean floor and all its riches caused Malta in 1967 to introduce a resolution to the United Nations asking the world organization to assume "jurisdiction and control" over resources on the ocean bottom.

THE MEASURE ALSO called for the United Nations to allocate revenues from the resources "primarily to promote the development of poor countries" and to reserve the ocean floor "exclusively for peaceful purposes in perpetuity" by banning weaponry on the ocean floor.

Sentiment exists in Congress that is in agreement with broad principles of the Malta resolution but there is strong resistance to turning over control of the ocean depths to the United Nations.

The valuable yield from natural resources at the bottom of the ocean and unlimited food potential of the sea make it imperative America moves immediately to reach agreement on an equitable international arrangement.

Lost time cannot be recalled.

Last week, at 3 in the morning, a meeting of Soviet leaders was called at the request of Vladimir Kov, the chief of GRUB's American Desk.

Kov opened the meeting by stating that he had just made a discovery which could affect Soviet-American relations for years to come.

"So speak, Kov," said Comrade Kosygin irritably. "It better be important, to get us out of bed at 3 in the morning."

"COMRADES," SAID KOV, "I have startling information that the American male is atrophying!"

What are you talking about?" Comrade Gromyko shouted.

"Americans are getting smaller. Look at these charts. This is the American male in 1958—and this is the American male in 1968. In 10 years his arms have become 2 inches shorter and his legs 3 inches shorter."

The Kremlin power structure looked at the charts in amazement.

"What has caused it?" Comrade Brezhnev asked.

"FOOTBALL," KOV SAID. "It appears that American men have been watching so much football on television that they are no longer using their limbs. Over a period of time their arms and legs have gotten smaller and smaller."

"Are you sure, Kov?" Comrade Sluslov asked.

"Of course I am sure. These charts were compiled from stolen X-rays in over 200 American hospitals. Notice that not only are the American male's limbs atrophying but his spine has been steadily curving from sitting in soft chairs. On the basis of our studies, we predict that in 20 years the average American male will be 4 feet, 3 inches tall."

Comrade Kosygin shook his head. "But how are we sure that the Americans will continue to shrink?"

"Because there will be more and more football on U.S. television. In five years there will be six hours of football every night and 48 hours on the weekends. It's possible that the American man may never leave his chair in front of the television set, except to get a beer."

Comrade Brezhnev said, "What does this all mean, Kov?"

"It means, comrades, that there is no reason to build an antiballistic missile system. In 10 years the Americans will be so small that they will no longer be a threat. Even when attacked, they will refuse to leave their football games."

"And it didn't cost us a kopek," Kosygin said happily.

"But," said Comrade Suslov, "what about the average American woman?"

KOV SAID, "Because she now has to do all the work around the house while the American man watches television, she is getting larger and stronger. This chart shows that in 10 years her arms and legs will have gotten 3 inches longer.

"This is bad," Comrade Brezhnev said.

"It's good," Kov said. "As American women get larger, their demands on their men become greater, so the men in turn become weaker. If the trend keeps up, by 1988 every man in the United States could become a vegetable."

Comrade Kosygin jumped on the table. "Let's hear it for the Baltimore Colts."

Queen Mother Seeks Power

WASHINGTON — A special Justice Dept. intelligence unit is developing a long memory. It's computerizing riots, rioters, assorted extremists, violent and nonviolent; crusaders, crooks, the dedicated and the disadvantaged, the hopeless and the hopheads, the infiltrators, the Maoists and the truly experienced Muscovite activists.

Victor Riesel

They're all there. But there is no national black front.

"When the streets are hit," said an understandably anonymous U.S. Assistant Attorney General," there is no national leadership. SNCC never had it. Neither do the Black Panthers. There are just hundreds of cells, big and small. They run four to five members and sometimes 10 to 12. But they are not organized centrally. There is no infrastructure. There just is no national operating organization."

That's what the computer says. And it is never wrong. But there are those who would like to confuse the memory box.

There is, for example, on the memory tape, a lady known as Queen Mother Audley Moore (Warner). She's an old Communist apparat-activist. I have no doubt, nor have the authorities, that she has assigned herself the task of creating a national black front, to woo in the hundreds of small cells.

FOR THE COMMUNIST PARTY, to which she has dedicated so many of her years, this would be a coup. For the nation's black communities, it would be a calamity. Such a feat would impede the counterattack, just launched by the NAACP against all extremists. It would frustrate the NAACP's recent appeal to reason, in which it said, "the emergence of (this) swaggering band of black extremists demanding abandonment of democratic methods and goals . . . must be met head-on by the vast majority of Negroes who reject the minority's tactics and goals . . ."

Any development of Communist influence among the black people would hamper the new offensive of the NAACP, which also said there must be a "repudiation of the nihilism of the extremists who are shrilly and insistently espousing apartheid; racism, including anti-Semitism; intimidation and violence."

Queen Mother Moore has other comrades in the field. But she's the prototype. She was a Communist activist and leader for years. She ran their political campaigns. She ran for the New York City Council herself as their champion. The black world soon became her arena. Unity was her cry.

LONG AGO SHE WAS a pioneer in black nationhood, throwback to the Negro separatism sponsored in the U.S. by Moscow during the thirties.

Long before today's young black extremists began shouting for a separate nation, Queen Mother Moore, the Conrade Audley of old, helped launch the African Descendants' Nationalist Independence Partition Party. That was in 1962. She keynoted the organizing conference and soon was "elected" the Party's Minister of Foreign Relations.

This set the pace and precedent for new "nations," each with their own cabinets and ministries.

Queen Mother Moore's first venture did not catch. It never got off the wall. Soon she went to another empire — the Republic of New Africa, launched in Detroit. This was an ambitious venture. The new Republic actually sought to buy land for an airstrip in Mississippi. This time, the Queen Mother was more restrained. She chose the post of Minister of Health and Welfare.

LATER SHE BECAME president of the Mount Addis Ababa Corporation, which developed training grounds in New York's Catskill Mountains. They never did get around to training guerillas there. But they did get New York City school children to come up for indoctrination until this was discovered and stopped by the new besieged central Board of Education.

The Queen Mother did not give up easily. She invaded schools. She developed a Minister of Interior police-type record of teachers who should be purged. She attempted to set up rump school districts.

Last March, she organized a steering committee to create a caucus to "organize a black power conference." However, the legitimate national conferences would have none of it. But there are many of Queen Mother Moore's comrades. They never tire. They never run out of money. They never run out of instructions.

Like the computer, their memories are long. They dream of the power the Party had back in the thirties. Then it had its base in the depression. Now it seeks its strength in the disadvantaged.

If the Queen Mother Moores succeed, it will be a grim day in black and white communities alike.

Up And Up!

Something is happening to the finances of state and local governments in America which in many respects is more serious than the unbalanced budgets and huge debt of the federal government.

Thus, for example, the annual expenditures by state and local governments have risen from $49.6 billion in 1960 to more than $103 billion in 1968.

These figures, which were compiled by the economic unit of the magazine "U.S. News & World Report," from data supplied by the U. S. Department of Commerce are startling not so much because of the total amount spent as the rapidity with which expenditures are increasing.

WHEN AN ANALYSIS is made of what is being done with the money, it will be found that education is getting 41.4 per cent, whereas police protection gets only 3.5 per cent and fire protection 1.7 per cent. Even the outlays for health and hospitals amount to only 7.7 per cent.

Undoubtedly the increasing amount being spent for education is due to the fact that the federal government offers to furnish up to 90 per cent provided the states put up as little as 10 per cent. This means a chance to finance new programs at 10 cents on the dollar, and the state and local governments are not likely to pass up that kind of opportunity to improve their educational systems.

The failure, however, to spend money for police and fire protection is one of the reasons why there are so many crimes being committed and why riots are not effectively handled. The total amount spent yearly by the 50 states of the union and local govennments for police protection amounts only to $3.3 billion, while $1.6 billion is allocated for fire protection.

More than $13 billion is allocatedtohighway protection amounts only to $3.3 billion, while $1.6 billion is allocated for fire protection.

More than $13 billion is allocated to highway construction. What is termed "public assistance and relief" receives $9.4 billion, largely because of federal grants.

The debt of the state and local governments has also soared at a rate far exceeding that of the federal government. State and local debt in 1968 is estimated at $129 billion, which represents a rise from $63 billion in 1960.

Under Secretary of the Treasury Frederick L. Deming said in a speech recently that a "mere continuance" of the rate of growth of state and local debt for the pust two decades would boost the total debt by another $120 billion in the next decade.

He pointed out that Congress, in 1968, passed new legislation by which the federal government is offering to pay part of the interest or principal on state and local borrowing for a number of programs. These include public housing, higher education, water-pollution control and hospital modernization.

Mr. Deming indicated it will be necessary to add new financial requirements for mass transit and other urban - redevelopment activities, municipal airports, antiair-pollution effects and other areas in which federal programs have been established and are expected to be increased. Mr. Deming added:

"Taking all this into account, it is not difficult to visualize a total rise in state and local debt over the next 10 years of $150 billion or more in addition to the 'normal' growth of $120 billion cited earlier.

"That would mean that, in 10 years, state and local debt would be rising by $30 billion to $35 billion or more a year, rather than by $10 billion, or less, as at present."

Mr. Deming and many others are saying that the present system by which state and local governments do their financing through tax-exempt bonds will not be sufficient for the borrowing that will have to be done. It is being predicted that some other arrangement will have to be made.

UP TO NOW it has been assumed that state and local governments are not carrying their share of the burden and that the federal government could unload it almost entirely on them. But it is apparent that the states actually are going more and more heavily in debt and are doing much more borrowing than ever before.

It may turn out that new forms of taxation or higher rates of present taxes will become necessary in the states and cities in order to meet the growing needs of an increasing population.

Education For Out-Of-Staters

State Finance Director Howard L. Collier's suggestion that state support for out-of-state students at state universities be discontinued will surely bring mixed reactions.

Most taxpayers doubtless will greet the proposal with varying degrees of approbation, but the administrative staffs of state universities and many students will look upon the idea with considerable disfavor.

TAXPAYERS ARE BEING ASKED to carry an increasing burden in support of higher education in Ohio, and from a pure monetary point of view it would seem only fair that they not be asked to share the cost of the out-of-state student.

Under Mr. Collier's proposal, however, there is no promise of any saving in educational funds. Support now going to out-of-state students apparently would be used for grants-in-aid to needy Ohio youths whose parents cannot afford to send them to college, and for creation of a high-risk loan pool guaranteed 100 per cent of the state.

Out-of-state students comprise only about 10 per cent of the total enrollment in the state universities.

State universities now receive an average of $800 to $900 in state support for each student, but fees for the out-of-state student are greater at most state universities than those for Ohio students. As a matter of fact, Kent State University recently increased fees for students from other states and countries.

From an academic and social point of view, university administrative staff, faculty and many students will argue, quite convincingly we believe, that it is good to have a modest percentage of students from out of the state.

They bring a wholesome mixture of geographical backgrounds and views, cultures and customs to the campus that tend to add breadth to the total educational experience of the Ohio student.

Just how much the exposure to influences brought into the state's educational system from the outside is worth to Ohio taxpayers is debatable. No one should doubt that it has a value to the student himself.

THE REAL QUESTION revolves around the extent to which the Ohio taxpayer has responsibility in helping to share the cost of an out-of-state student's education.

Morally, of course, he has none. Humanitarily and sociologically, he may find it exceedingly beneficial in the long run.

We have always held the view that state higher education would be considerably less costly if those who could well afford to do so would avail themselves of the opportunity to enroll in private colleges and universities.

Valuable Time Is Slipping By

Jules Verne wrote his "Twenty Thousand Leagues Under the Sea" in 1869 and foresaw sailing under the polar ice cap, going from submarines to the ocean floor via water locks and using compressed air guns to hunt sea life. All of these dreams, and more, have become reality.

Technology is now geared up to make more dreams of the sea become reality but several problems are holding up progress. At the top of the list is a lack of money.

OCEANOGRAPHY HAS NEVER been a favorite project of the government and only recently has it been allocated enough money to make a concerted attack on dislodging secrets from the sea.

Of the $448 million authorized for oceanography in fiscal 1968, about half went to the Defense Department, mainly the Navy.

The remainder was scattered among 22 bureaus in 10 federal departments and agencies. The bureaus, in turn, funneled money into scores of marine science research projects conducted by private industry and by universities.

It is expected the construction of a $20 million oceanographic laboratory on Virginia Key in Florida by the Department of Commerce will help to pull the federal program together.

Another problem is the legal question: Who owns the ocean bottom? The traditional concept of the freedom of the seas and national control of territorial waters apply to the surface but not the depths.

The United Nations International Law Commission tackled the problem and drafted a treaty in 1958, which has since been ratified by 87 countries, recognizing that maritime nations had exclusive rights to explore the continental natural resources.

The treaty, by implication, permitted the extension of sovereignty over a continuous stretch of the seafloor as far out as it is possible to exploit natural resources.

The fear that wealthy countries could control the ocean floor and all its riches caused Malta in 1967 to introduce a resolution to the United Nations asking the world organization to assume "jurisdiction and control" over resources on the ocean bottom.

THE MEASURE ALSO called for the United Nations to allocate revenues from the resources "primarily to promote the development of poor countries" and to reserve the ocean floor "exclusively for peaceful purposes in perpetuity" by banning weaponry on the ocean floor.

Sentiment exists in Congress that is in agreement with broad principles of the Malta resolution but there is strong resistance to turning over control of the ocean depths to the United Nations.

The valuable yield from natural resources at the bottom of the ocean and unlimited food potential of the sea make it imperative America moves immediately to reach agreement on an equitable international arrangement.

Lost time cannot be recalled.

How Can I?

By ANNE ASHLEY

Q.—How can I remove perfume stains from clothing?

A.—These are tough stains to deal with! However, you can try wetting them first with water, then working on the stains with glycerin and cheesecloth, then rinsking with water. If traces still remain, work on the stains some more with a 20 per cent solution of acetic acid (vinegar), then flush out with clear water.

Q.—What can I use for starching delicate fabrics, the kind of fabrics that cannot stand ordinary starch?

A.—Dissolve a small quantity of sugar in the final rinse water when laundering these items.

Q.—What is an easy method of cleaning soiled photographs?

A.—You can often do a good job of this just by washing them with facial tissues dipped in water.

Q.—How can I deal with bluing spots on white materials?

A.—Bluings differ chemically, and spots due to them vary in treatment. Cold water is a general method. Dampening the spot with alcohol before laundering will usually remove the stain.

WORLD ALMANAC FACTS

The ordinary 100-pound flour sack had a life cycle going from bag to rag in the economy of our frontier forebears. The sack was bleached and made into work shirts with the collars worn out on both sides before being trimmed into dishcloths. Eventually, the material became household cleaning rags and, finally, outdoor work rags on which the men wiped their greasy hands.

Killed In Vietnam

WASHINGTON (AP) — The Defense Department announced Wednesday that Army Pfc. Melvin R. Green, son of Pauline Helms, New Paris, Ohio, has been killed in action in Vietnam.

Budget Gets First Reading At Industry

Industry Council gave first reading to a tentative budget for 1969 Wednesday night at the borough building. The budget is $56,434, down approximately $2,000 from the 1968 figure of $58,816.

Taxes will remain at 10-mills on property and $3 per capita. The budget is less for 1969 because council has less loan obligations than in 1968, due to repayments.

The budget includes $9,425, general government; $10,670, protection to persons and property; $200, health and sanitation; $20,500 highways; $4,000 recreation; $200, special services and $10,000, temporary loan in anticipation of taxes.

The budget will be advertised and available for public inspection at the home of the borough secretary, Mrs. John Parsons of 802 Allison Dr., Ohioview, Industry.

The budget will be adopted at a special meeting Dec. 30 at 7 p. m.

William Ralph, chairman of the Community Planning Commission said Michael VanDoren has completed the appraisal of the property behind the borough building. The report will be discussed with the Borough Planning Commission. Another property near the Atomic Boat Club is not for sale at the present time. The borough had been considering the properties for recreational purposes.

Mayor Steve Suchanec reported 14 complaints; 3 arrests; 3 accidents and 7 warnings. There were 2,257 miles logged on the police cruiser.

The next regular meeting will be Jan. 8 at 7:30 p.m.

Bills totaling $22,507 were paid. This included $19,250 for resurfacing of streets.

College Student Mails Draft Card To Local Board

CINCINNATI (AP) — Jeffrey Halper became one of a few rabbinical students in the nation to withdraw from the Selective Service as he mailed his draft card Wednesday to his local board.

Halper, a first - year student at Hebrew Union College here, said he took the action to protest United States military presence around the world and the draft system itself.

Halper, 22, stated that he announced the decision "specifically in the context of religious service" and that the action would put him in the position of facing a possible jail sentence to emphasize his "commitment."

He currently has a 4-D deferment as a divinity student with the board in Ribbing, Minn., his home town.

During a ceremony at the college chapel, Halper said that just because the war in Vietnam may be nearing an end, it does not mean that "America is a good guy. We are doing the same thing in Latin America and around the world."

Dr. Nelson Glueck, college president, said Halper's standing at the school will not be affected by the action.

ident Johnson's statement last week that "We must expect both hard bargaining and hard fighting in the days ahead." After Johnson announced the bombing halt, the U.S. Command announced that it was intensifying ground operations in South Vietnam to keep the Viet Cong and the North Vietnamese from gaining an advantage because of the halt in air attacks on North Vietnam.

Asked about the increase in casualties, a U.S. spokesman noted that action accelerated last week along the Cambodian border north of Saigon, where the Communist command is reported to have 15,000 to 20,000 troops.

"That would account for part of it," he said, pointing out that more than 700 of the 2,689 enemy troops reported killed last week died in fighting along a 100-mile stretch of the border area.

This appears to be the most critical area in South Vietnam now. Another U.S. Command spokesman said earlier today that North Vietnam had pulled the bulk of its forces out of South Vietnam's northernmost province and the demilitarized zone just above it.

Donald Devich, presiding minister of the Midland congregation of Jehovah's Witnesses, said Duane A. Emshoff, circuit minister, is paying his semi-annual visit to Midland.

Friday May See Recount Windup

There is a possibility the recount of the sheriff's race in Hancock County may be finished by Friday night, it was reported today.

Candidates for sheriff reportedly were camped on the county Courthouse grounds at New Cumberland Wednesday night during the recount.

An official of the sheriff's office said that both candidates, Democrat - elect Louis Smoleski and Republican Ralph Patrick, were on the grounds so as to be able to view the officials engaged in the recount of ballots.

Smoleski's margin of 36 votes over Patrick was reduced to 29 votes in the recount of precincts 6, 7 and 9 in Grant District Tuesday night.

Circuit Minister Plans Services At Kingdom Hall

Donald Devich, presiding minister of the Midland congregation of Jehovah's Witnesses, said Duane A. Emshoff, circuit minister, is paying his semi-annual visit to Midland.

The congregation anticipates increased activity and spiritual benefit from Emshoff's visit, Devich said. The visit is described as part of an advanced training program for Jehovah's Witnesses. The activity scheduled is also designed to encourage more Bible discussion by people of all faiths in the community.

Time will be devoted to field missionary service each day. He will join ministers from the local congregation in making calls on residents in the community. This is part of the regular door-to-door ministry and training program of Jehovah's Witnesses.

The Saturday evening program begins at 8 with a Bible question period, "New Things Learned," which consists of audience participation. A 30-minute discourse by Emshoff dealing with counsel for improving one's personal ministry concludes the session.

Highlight of the week comes Sunday at 9:30 a. m. when Emshoff gives a public talk, "Learning from the Miracles of Jesus." A congregation Bible study using the Watchtower magazine as an aid, and final remarks by Emshoff, bring the week's activity to a close. All meetings will be held at Kingdom Hall at 437 Virginia Ave.

'Pen Pals' Meet Face-To-Face After Corresponding Nine Years

Thanksgiving is the time for family gatherings and reunions and a very special meeting took place between Janice Castelli of Midland and Signe Kirsten Heidi of Hawaii last week end.

The girls have been "pen pals" for nine years, but never have been able to see each other. Other visits have not "worked out" for one reason or another.

Janice, the daughter of Mr. and Mrs. Charles Castelli of Virginia Ave., is a registered nurse at Rochester General Hospital and Signe is a junior at Valpariso College in Indiana.

—:—

WHEN SIGNE wrote that she could visit for Thanksgiving, plans were made to meet her at the Beaver Falls Interchange of the Pennsylvania Turnpike—she traveled there with a sorority sister.

The girls were very nervous—each wondering what to say to the other. Their fears were unfounded because they got along as though they had known each other all their lives. In fact, they wtre still talking at 3 a.m. as they prepared a turkey for the Thanksgiving dinner.

Signe says she will be back for Janice's wedding next year.

—:—

SHE HAS three younger brothers. The eldest is a freshman at the University of Arizona and the others are at home.

Signe says it is not unusual for Hawaians to come to the "mainland" for their education. She loves it here and says her school is all she could ask for and more.

Relating her reactions to the first snowfall she had ever seen, Signe says she was so excited she phoned her mother in Hawaii. Of course her mother was sure there was something wrong, she couldn't believe Signe would call just because it was snowing.

—:—

SIGNE'S parents are originally from the mainland. Her father is a refrigerator contractor.

Both girls agreed each was exactly what they had expected—except each thought the other would be taller.

Signe will go home for Christmas, which is celebrated the same as here. Christmas trees are shipped from the west coast.

Next summer Signe will tour Europe with her history class, so Janice will be receiving many interesting letters again.

PEN PALS MEET. Janice Castelli, left, and Signe Kristen Heidi of Hawaii look over photographs and letters they have exchanged during the past nine years. They met for the first time over Thanksgiving, when Miss Heidi spent the holiday at the Castelli home. Janice is the daughter of Mr. and Mrs. Charles Castelli of Virginia Ave.

A jury Oct. 29 convicted Irwin of shooting Ronald Bailey, 20, of 640 Henry Ave., Wellsville.

Bank Of France Reports Gold, Currency Upturn

PARIS (AP) — The Bank of France reported improvement in gold and currency reserves today and a worker protest against Charles de Gaulle's austerity measure came off without incident.

At the same time, gold prices eased back slightly in Paris and other European trading points.

Workers at Renault, the nation's chief automobile manufacturing comples, staged four-hour protest strikes against President de Gaulle's moves to bolster the franc through internal belt-tightening. But police kept their distance and there were no reports of trouble.

The company reported the strikes were only partially effective.

The gold and foreign currencies that flooded out of France in the wave of speculation against the franc last month have begun to trickle back, the Bank of France reported.

For the first time since Sept. 3, the Bank of France's weekly statement showed an increase in the reserves. For the week ending Nov. 28, the holdings of gold and foreign exchange bounced up $46.4 million. It wasn't much but French officials hoped that it signaled a trend.

Gold prices dropped back slightly in Paris, Zurich and London after hitting the highest point in almost five months Wednesday. On the London free market, gold was quoted at the equivalent of $40.45 an ounce. In Zurich the range was $40.35 to $40.55. In both cases the drop was 5 cents an ounce.

In Paris, the price of a one-kilogram, or 2.2 pound, gold ingot was at the rate of $43.50 an ounce, down from $43.9 an ounce Wednesday, which was the highest since July 5.

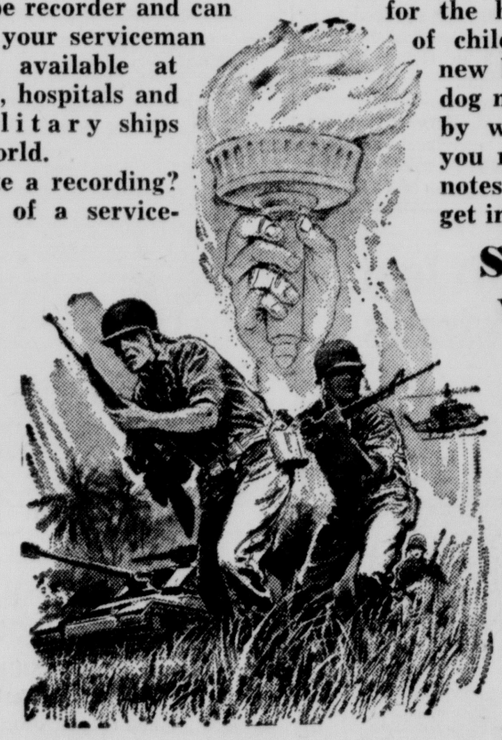
FREE!

Record your voice on a tape and send it to your serviceman overseas free of charge.

You can brighten the Christmas Holidays of your loved ones with a recording of your voice, the voices of the children and other family members; wishing them a very personal Merry Christmas, and sent with a picture of yourself and other family members.
This is a free service made possible through the cooperation of Don Eckert's Camera Mart, Radio Station WOHI, The Camera Club, and your East Liverpool Area Chapter of the American Red Cross.
Call the Area Red Cross Chapter office, 386-4144, to reserve a recording date. Your talking letter will be made on a tape recorder and can be played by your serviceman on machines available at military bases, hospitals and on board military ships around the world.
Who can make a recording? Any member of a serviceman's family: Wives, children, mothers and fathers, brothers and sisters, grandparents, foreign students — perhaps a foreign bride for her family overseas.
Where is the recording made? At Radio Station WOHI, East Liverpool or at the Area Red Cross Chapter office, 213 E. Fourth St. An appointment will also be made for a member of the Camera Club to take your picture to accompany the tape recording.
What is there to talk about on the recording? Holiday greetings — all the news from home — activities of family members — any special plans for the holidays — the voices of children — or perhaps a new baby — maybe the pet dog might voice a few barks by way of greeting. Before you record, jot down a few notes so that you won't forget important news items.



Send your voice and your picture across the miles.

Complements to us!

Now Crucible Steel Corporation and Central Transformer Corporation have joined the growing world of Colt Industries.

Their entry represents the greatest expansion step in the history of our company—and as a result Colt Industries is currently operating at an annual rate of about $700-million.

But size — as such — was not our goal in acquiring these outstanding enterprises. We obtained innovative technologies, quality products and strong marketing positions that reinforce the main thrust of our programs to system-service industry, government and defense.

A leading supplier of specialty metals, including stainless and high-alloy steels, titanium alloys and space-age materials, Crucible Steel is known for its imaginative work in metallurgical research and development. And metals technology is fundamental to every product Colt Industries manufactures.

Central Transformer, also highly research-oriented, won recognition as the largest independent producer of electrical transformers and related equipment for the utility industry. Colt Industries supplies electric power-generating equipment to the same massive, fast-growing market.

In short, both newcomers complement our activities —and complements are a great way to grow.

Santa and the HIPPIES

By LUCRECE BEALE

Synopsis: Ding Dong goes to Hippieville where kids do as they please. They decide to capture Santa Claus because it's his fault that children have to be good.

"Santa sent me to bring you to Santa Land," said the elf.

CHAPTER 4

By now Ding Dong was a mess. He had chewing gum in his hair, chocolate in his ears and finger paint all over his face and clothes.

His own mother would not have recognized him. If she had, she would have had to go to bed with a sick headache for a week.

Ding Dong's head pounded with the crazy music the hippies beat out on the radiators and dishpans and venetian blinds. His stomach was turned upside down from all the candy and hot dogs and pizzas he'd dumped in it. He hadn't had carrots or eggs or even a glass of milk since he came to Hippieville. He couldn't remember what it was like to sleep in a real bed.

—:—

SO WHEN the red-headed hippie told Ding Dong he was appointed to capture Santa Claus and make him a prisoner in Hippieville, Ding Dong protested, "Why me?"

"Because Santa knows you! Didn't he send this elf Edgar to bring you to Hippieville? You have the inside track, man—Santa Claus is interested in you!"

"Well, I don't —" began Ding Dong.

"Go ahead," interrupted the redhead. "Write Santa a letter. Tell him you want to see him. If he really cares about kids the way everybody says he does he'll come."

"Yes, yes," agreed the other hippies. "Groovy idea!"

"Well, I don't—" began Ding Dong again, but he never had a chance to finish his sentence.

The hippies put a scrap of torn brown paper bag in front of him and a jar of yellow finger paint and the redhead said, "Write!"

Ding Dong dipped his finger in the paint and wrote: "Dear Santa. Come. Signed Ding Dong." He added "Please" at the bottom. It was a word he didn't often use but he thought it would be the smart thing to do in this case.

"Now put it in the fireplace like all the kids in Dullesville do!" said a hippie.

—:—

DING DONG put the letter in the broken - up fireplace. Then he crept down to the basement where he'd found a niche behind the furnace where he could be alone. He lay down and went to sleep.

He hardly had time to start a dream when he was awakened by Edgar the elf. "Santa got your letter," said Edgar. "He can't come here. He's too busy. He sent me to bring you to Santa Land."

Ding Dong was relieved. He had done what the hippies wanted. It hadn't worked but no one could blame him. He was very glad Santa wasn't going to be a prisoner in Hippieville after all. He said to Edgar, "Never mind. I'll see Santa some other time."

But the redhead hippie had come to the basement to get a case of soda pop and he heard the whole thing. He took Ding Dong to a corner and said, "Man, you've got to take the trip! Go to Santa Land and get Santa back here somehow. It's your duty to free all those poor kids in the world who are working themselves to death being good."

Ding Dong thought perhaps the hippies were right. Anyway it certainly would be a good thing if no one had to take a bath again. So he went back to Edgar and said, "All right, I'll go."

Dinner Set For Calcutta Fire Groups

Car Strikes Pump

Palestine Fireman Hurt In Blaze At Gas Station

EAST PALESTINE — A city fireman was injured slightly while fighting a blaze at a downtown service station Wednesday at 6:12 p.m., which started when an auto struck the base of a gas pump.

George Baun, 29-year-old fireman of Lincoln Ave., was struck in the eye by flying glass when the bulb indicator exploded in the pumping unit. He was treated by a local doctor.

The fire began at the Pure Oil Station at S. Market and W. Main Sts. when an auto operated by Mrs. Linda Ann Agnew, 19, of Park Ave., struck the pump base, police said.

Mrs. Agnew told police she was pulling into the station and instead of braking to slow the auto, her foot struck the clutch, putting the car in gear, and it hit the pump.

Officials said the blow caused a short circuit in connections and the impact closed off a large underground gasoline storage tank, thus averting what could have become an inferno.

Only the fluid in the hose and the above-ground pumping unit fed the blaze, which was extinguished quickly by firemen with hand chemical outfits.

Because of the threat of a larger blaze, employes of the nearby Davis Studio were evacuated.

The pump damage was estimated at $400 by owner James McIlduff. The car was not damaged and there was no citation, police said.

She attended Ohio Wesleyan University at Delaware, where she was married to Mr. Golding, who died in 1948 at their summer home near Chautauqua, N. Y. During the 1920's, the Goldings moved to DeLand, Fla., where both were real estate brokers.

She is survived by a daughter, Mrs. Helen Golding Cherel of Arlington; a sister, Mrs. Isabelle Weaver of Elyria, and one grandchild.

Friends will be received Friday from 7 to 9 p.m. at the home of Mrs. Everson Hall of Park Way. The family requests that material tributes take the form of contributions to St. John's Episcopal Church, South 5th & Lexington Sts., Arlington.

The Dawson Funeral Home is in charge of local arrangements.

$32.1 Million Tax Tag Set On W. Va. Utilities

CHARLESTON, W. Va. (AP) — More than 200 public utilities in West Virginia will pay some $32.1 million in local property taxes in 1969, an increase of $1.8 million over 1968.

The Tax Department made that rule of thumb computation Wednesday on the estimate that each $1 million in property valuation yields $30,000 in local property tax revenue.

The computations were made after the Board of Public Works set valuations Tuesday on property owned by the utilities at a total of $1,072,150,400, up $61 million from 1968.

The total also represents a boost of nearly $43.5 million over tentative valuations for 1969 drawn up by the Tax Department in October.

The board set utility valuations for tax purposes at 58.28 per cent of calculated actual value, the statewide ratio of assessed to appraised value for nonutility property.

The sole exception to the 58.28 per cent rule is for telephone and telegraph companies, which will pay on the basis of a 53 per cent ratio.

Here are the 1969 valuations by categories of utilities with increases and decreases from 1968 in parenthesis:

Airlines, $1,246,600 (i. $199,200).

Toll bridge companies, $598,800 (i. $25,500).

Bus lines, $3,204,500 (d. $164,700).

Electric companies, $306,204,200 (i. $17,045,000).

Express companies, $160,500 (d. $13,600).

Gas companies, $265,294,300 (i. $15,504,700).

Pipeline companies, $55,374,600 (i. $3,025,400).

Railroad, $266,305,700 (d. $5,674,500).

Railroad carline companies, $5,580,400 (i. $656,600).

Telephone and telegraph companies, $147,531,500 (i. $29,826,800).

Water companies, $20,649,300 (i. $599,600).

Crash Hurts Elderly Man On Lisbon St.

An elderly LaCroft motorist was admitted to Osteopathic Hospital for X-rays of possible hip and shoulder injuries after a traffic mishap and a peculiar sequel Wednesday afternoon on the Lisbon St. Hill, police reported.

The 1960 model car driven downgrade by Joe N. Mercer, 75, of 7th Ave., LaCroft, was forced off the pavement by another auto and then struck the parked 1963 model station wagon of George W. Johnson of 804 Lisbon St., parked in front of the owner's home, officers reported.

Mercer told police he alighted from his auto to check on the damage to the Johnson vehicle. Then, he related, his car began to drift. He attempted to get behind the wheel to halt it as the car went very slowly to the left across Lisbon St. with the door on the driver's side open.

A woman motorist identified as Janet Perkins, driving upgrade, realized what was happening and pulled her auto in front of the Mercer auto to stop it long enough for the elderly motorist to regain control.

A witness gave police a description of the auto which forced Mercer's auto off the street. There was damage to the right rear fender and side of Mercer's car and the left rear and side of Johnson's vehicle. The mishap was timed at 1:33. Patrolman Charles A. Winters investigated.

Mercer was X-rayed at City Hospital and released.

Meanwhile, a motorist was charged with driving while intoxicated and leaving the scene of an accident after an auto he was driving went off St. Clair Ave. just north of Walnut St. at 12:58 this morning and struck an Ohio Power Co. pole and a city-owned "no parking" sign, officers said.

Police identified the driver as Alfred Higgins, 34, of 770 Dresden Ave. He was operating a northbound 1965 sedan owned by Ralph Jackson of 165 Vernia St., police said.

A mishap at Mulberry St. and Pennsylvania Ave. Wednesday at 10:50 p.m. damaged a 1969 sedan driven by Richard Wilson, 38, of 2625 St. Clair Ave. and a 1968 sedan operated by Stelle E. Burns, 60, of 721½ Cadmus St., officers said.

Carl McVay of 1012 Waterloo St. told police the left front of the hood of his 1967 two-door sedan was damaged when struck by a hit-skip vehicle while parked on E. 4th St. just west of Broadway Wednesday between 6 and 7:30 p.m.

Routine Arrest Nabs Man In Murder Case

BRYAN, Ohio (AP)—A routine speeding arrest on the Ohio Turnpike Wednesday night resulted in the capture of a Cleveland man named in a first-degree murder warrant in an Oct. 5 slaying in Cleveland.

The highway patrol said Samuel Byrd, 30, was stopped nine miles east of the Indiana line.

He is charged in the shooting death of 17-year-old Larry Jacobs of Cleveland at a carryout, Cleveland police said.

ALBUQUERQUE, N.M. (AP) — Dr. William R. Lovelace, 85, a surgeon and founder of the Lovelace Clinic in Albuquerque, died Wednesday after a long illness. His clinic examined the first group of U.S. astronauts. It opened in 1923.

Steel Firms Okay Merger

PITTSBURGH (AP) — Pittsburgh Steel stockholders voted Wednesday to merge with Wheeling Steel, forming a new company that will be the ninth largest producer in the nation.

Slightly more than 78 per cent of Pittsburgh Steel's stock was voted at the special meeting, and the company said 99 per cent of the votes favored the merger.

Wheeling Steel shareholders okayed the proposal at a special meeting Tuesday.

The new firm, to be called the Wheeling - Pittsburgh Steel Corp., will have assets totaling $620 million and yearly sales, at current rates, of about $450 million.

The new firm's executive headquarters will be Pittsburgh and its administrative and operating headquarters in Wheeling.

Terms of the merger involve an exchange of Pittsburgh Steel shares for new shares in the Wheeling-Pittsburgh firm.

The new company indicated millworkers' jobs are safe—but fairly large numbers of administrative people will be looking for work within a year.

Both merging firms have been for years among the steel industry's weaker earners.

However, declared President Donald C. Duvall, "In this case, one plus one will add up to an entirely new steel company. . . capable of meeting and beating our competition."

Titanium Denies 'Accord' Rumors

TORONTO — Officials of the Toronto plant of Titanium Metals Corp. of America today termed untrue rumors that the company and the United Steelworkers were close to reaching a contract settlement.

The statement, issued by C. E. Ware Jr., director-industrial relations, declared:

"The company has offered the steel wage package plus other steel fringe benefits, however, the union has rejected this offer. The union is demanding the steel wage package, plus an additional 30 plus cents an hour, plus guaranteed incentive wages. The company repeatedly has told the union that it cannot agree to these demands.

"Therefore, it is obvious that we are not close to reaching a settlement—and, perhaps, are further apart than we were when the strike began Sept. 30."

CINCINNATI (AP) — A Cincinnati man, accused of setting his girl friend on fire with lighter fluid Nov. 12, is being held to a Hamilton County grand jury on three felonies.

William Jackson Jr., 25, was bound over to the jury Wednesday on charges of arson, assault with intent to kill and possession of a narcotic drug.

The girl friend, Katie Williams, was not seriously burned.

The force is composed of citizens, both Negroes and whites, who share a desire to expedite general rehabilitation of the predominantly Negro community.

In Streets During Convention

Undercover Agents Cited In Bid To Spur Violence

WASHINGTON (AP) — A leader of the antiwar demonstrators who fought with authorities in the streets of Chicago during the Democratic National Convention says police undercover agents tried to spur the protestors to violence.

David Dellinger, chairman of the National Mobilization Committee to End the War in Vietnam, told a House panel investigating the Chicago disorders Wednesday that the police agents tried to blur the purpose of the demonstrators by urging them to use force.

Dellinger, who was called for a second day of testimony today before a subcommittee of the House Committee on Un-American Activities, also said he had appealed to the protestors not to fight even "when police brutally attacked us."

"My position has always been to avoid violence and to avoid provocation," Dellinger said.

There was a brief flurry before the hearing actually started Wednesday when Yippie leader Jerry Rubin appeared outside the room dressed in a Santa Claus suit and carrying a toy gun. He was ordered kept out by Chairman Richard Ichord, D-Mo.

Rubin, who showed up at hearings last October wearing a bandoleer and war paint, told reporters his latest costume was typical of the committee, which he described as "a total circus."

Rubin said he would refuse to appear as ordered at a closed session Friday and would insist on a public hearing.

Dellinger, said at Wednesday's hearing, he advocated "revolutionary change, and I use this in the form of drastic or basic rather than I should go out and kill you or you me."

As a pacifist, Dellinger said he could understand American, Vietnamese, Cuban and black patriots who feel it necessary to resort to violence "to throw off oppressive force."

Dellinger condemned the "imperialist United States for fighting a war of example in Vietnam." He also said he condemned the Soviet invasion of Czechoslovakia while in Chicago but said this wasn't widely publicized.

During his afternoon on the witness stand, he suggested additional inquiry be made into assassinations of President John F. Kennedy and Negro leader Malcolm X.

He called the Warren report, which said it found no plot in the Kennedy slaying "a snow job to try and pacify the American people."

Difficult To Pinpoint Cause

Vastness Of Market Seen Snag In Bond Rise Probe

WASHINGTON (AP) — Government experts say the market in bonds is so vast and varied that it may be impossible to pinpoint whether the sudden rise in value of a railroad's bonds following a secret ruling was coincidence or contrivance.

The Interstate Commerce Commission is investigating whether an inside leak caused the dramatic upturn in the price of New Haven Railroad bonds in the week before the ruling was made public.

But an official in another agency which serves as the watchdog on the stock market said bond trading is so big and so broadly scattered that the government doesn't even know how many bonds are bought and sold each day.

"It's a very difficult thing to supervise. You don't have the surveillance," the official said.

The ICC had decided to allow a multimillion dollar boost in the price for the Jan. 1 takeover of the bankrupt New Haven by the Penn Central system.

But the agency decided to keep the matter secret for a week until the full ruling could be printed and publicly announced Monday.

It was during the time between the decision and its public announcement that the New Haven mortgage bonds pulled out of a month-long skid and jumped $46.25 over a two-day period to $578.75.

ICC Chairman Paul J. Tierney said, "There is certainly no indication of any leak." But he said his agency is investigating.

The Securities and Exchange Commission, in keeping with its policy of silence on market probes, would not say whether its watchdog experts also are checking the price jump.

But an SEC source said any price change is extremely hard to unravel because no central records are kept on all bond dealings.

While stocks on the market run into the thousands, bonds can run into the hundreds of thousands, he said. And, rather than being bought and sold only at a stock exchange, bonds are usually traded over the counter directly between dealers around the nation.

Stocks are ownership shares in a firm. Bonds, in simple language, represent loans made to a corporation, a city government or the federal government—like U.S. Savings Bonds—which are repayable with interest at a later date.

Any bond probe has to start with the various dealers to try to trace the sales backwards to find out what happened.

In contrast, the New York Stock Exchange maintains a computer check on all sales of stocks to detect any irregularities immediately.

The $46.25 jump in New Haven bonds took place on the New York Stock Exchange Nov. 26 and 27. The SEC official said the stock exchange tradings usually represent less than one-tenth of the over-all bond sales, but presumably reflect market trends.

Tierney said, "I'll be frank and admit the bond market is confusing to me. But I'm certainly learning a lot more about it."

Trucker Grabs Youth In Windshield Case

A Lisbon St. youth was nabbed by a Mahoning County trucker Wednesday at 5:38 p.m. after stones hurled from a group of three youths smashed the windshield of his rig as he drove on W. 8th St. under the Freeway overpass, police reported.

Howard Smith of Youngstown told officers he was driving east on W. 8th St. when a stone hit the right front of his windshield and another slammed into the right side of the cab. He said he saw three boys standing in the darkness under the concrete span.

Smith halted the rig and gave chase. Two of the boys ran up a steep embankment nearby and eluded him, but Smith nabbed the third, who was slowed by the fact he took time to get his bicycle, police said. Smith was driving a rig owned by William Cornell of Pine Grove Rd., Hubbard.

HINTS FROM HELOISE

A Helpful Yuletide Idea

DEAR FOLKS: Every year people write and want to know how to paint pine cones and leaves for decorative arrangements during the holidays.

Heloise

Get an old coffee can or a plastic bleach bottle which has the top cut off and fill it about three-quarters with tap water.

LETTER OF LAUGHTER

Pour some paint (NOT water paint. Use house paint, etc.) in the water. The paint will float on top of the H2O.

Any color — silver, gold or flat white is beautiful!

Dip your dry pine cones into this slowly and they will come out ever so lovely! Place 'em on newspapers to dry. If you make a mistake the first time. . . they can be dipped again with no harm done.

When it comes to painting a branch of holly with a lot of leaves, why don't you paint only the top side? I do this by covering the red berries with a small piece of foil, laying the branch on paper then spray-painting the leaves.

When the bit of foil is removed, the beautiful red berries will show, the top of the leaves will be white or silver (some people like gold) and all the underneath leafy part is green!

The branches have beautiful contrasting colors. Lovely for centerpieces, mantels or when a sprig is attached to the top of a lovely Christmas package — that saves the price of an expensive bow . . .

HELOISE.

DEAR HELOISE: Last night while cutting my little girl's bangs, she picked up a piece of lined notebook paper and put it under her bangs to keep the short falling hairs out of her nose and eyes. I took a look at the lines — then cut the bangs along one of them. Wow! She ended up for the first time with perfectly straight bangs.

GLORIA CLANTON.

DEAR HELOISE: I know that many times an accident victim is brought unconscious to a hospital emergency room without identification.

I have put a card back to back with my driver's license (both together in a plastic card-holder) with the following information:

Blood-type, drug allergies, my doctor's name and phone number, accident insurance company and policy number. Also the names of two people to be contacted in case of an accident.

I'd sure like to see the driver's license cards or forms of all states have a place on the reverse side for this information.

EMGERGENCY ROOM VOLUNTEER.

-:-

Me too!

Blessed are YOU for your volunteer work.

HELOISE.

DEAR HELOISE: I have white kitchen cabinets that always seem to have dirty little handprints on them.

I dampen rags in a good cleanser and give them to my four- and five-year-old and it is really surprising what a good job they do cleaning the lower portions.

And while they're at it, they also clean up black heel marks and polish legs on the dinette set. I praise them a lot and really get the work done (with no backache!).

Of course, when I clean thoroughly, I always turn the chairs upside down on the table like cafes do and then clean the legs good. Saves bending over.

NANCY.

DEAR HELOISE: One Sunday afternoon while hubby was sleeping, I, as a new bride, decided to surprise him with a beautiful chocolate cake.

The recipe called for a cup of coffee, so that's just what I put in — a cup of grounds, that is!

I had assumed the cake was to be crunchy. Needless to say, it was SO crunchy we had to throw it out . . .

DUMB BUNNY.

DEAR HELOISE: After four babies, I've hit on a good idea. . .

Preparing for baby's bath time, I went to the linen closet for a towel and noticed the beach towel stored there.

As it never gets used except during the summer, I thought that it sure would keep my little guy warm and cuddly after his bath.

I've used it ever since. There's enough room to bundle him in and dry him at the same time . . . and he gets used to the change of temperature more gradually.

U.S. Battle Deaths Hit 2-Month High

SAIGON (AP) — The weekly toll of American battle deaths climbed last week to its highest mark in two months, the U.S. Command announced today.

U.S. spokesmen said 228 Americans were killed in action the highest death count since 247 Americans died in combat in the week of Sept. 22-28.

While no major sustained fighting was reported last week, there were a number of sharp, scattered actions across the country, including clashes along the Cambodian border north and west of Saigon.

The 228 American dead last week represented a sharp increase over the 160 killed in action the previous week. Another 1,094 Americans were wounded last week, and 469 of them were hospitalized the previous week 1,432 were reported wounded in action.

South Vietnamese headquarters reported government casualties dropped slightly last week, with 223 men killed and 789 wounded in action. The tolls for the previous week were 246 killed and 902 wounded.

U.S. headquarters said 2,689 of the enemy were killed last week but noted—as it does every week—that the figure was "subject to adjustment."

Last Thursday, the total of enemy dead for the week of Nov. 17-23 was put at 2,175, but this was increased today to 2,706 on the basis of more recent reports.

The latest casualty count raised to 29,865 the number of Americans reported killed in action in Vietnam snce Jan. 1, 1961. A total of 188,159 American wounded and 421,226 enemy dead have been reported in that period, the U.S. Command said.

The commissioners re-elected A. R. Maslar of Columbus executive secretary and elected Robert Brown of Portage County vice president, Carl Mauntel of Scioto County second vice president and Homer Perry of Champaign County treasurer.

Students' Coalition Opposes 'State Of Siege' At College

CHARLESTON, W. Va. (AP) —Students from three state colleges and both universities have formed a coalition to oppose "the stage of siege" at Bluefield State College.

According to Dan Stewart, a student at Marshall University, the coalition was formed Tuesday night during a meeting at Charleston of students from Marshall, West Virginia University and Bluefield, Concord and West Virginia State colleges.

"Our primary purpose now," Stewart said Wednesday, "is to do what we can through United action to support the Bluefield students."

Several student leaders at Bluefield have called for the resignation of college President Wendell Hardway and other college personnel and condemned the school as "racist."

Hardway has denied such charges and refused to resign.

The demands also came at a time when Bluefield was experiencing a series of acts of violence that culminated in a bombing on the campus before the Thanksgiving holiday break.

After the bombing, classes were let out early and the school was closed. It has since reopened but both dormitories remain closed.

Five persons, three of them Bluefield students, have been arrested and charged in connection with the bombing.

Stewart said students at the meeting Tuesday night included several Negroes from Bluefield who wished to remain anonymous, Stewart said, because of the school's "policy of intimidating and punishing Negro leaders."

The firemen annually sponsor Santa's visit when youngsters in the community are treated. Santa will begin making his rounds on a truck at 1 p.m. Any youngster who is shut in and cannot go outside should contact the firemen relative to a visit by Santa.

A change was made in the by-laws, with the post of lieutenant created. The post will be filled during the annual election in January.

Bids will be asked for accessory equipment such as nozzles and fittings, George Cowey, captain, said.

Motorist Cited After Accident

A Chester area youth was cited for failure to yield the right-of-way as the result of a two-car accident two miles north of Wellsville on Route 45 Wednesday afternoon.

Charles William Muskgrove, 20, of Chester RD 1, driving a 1962 coach north, attempted to make a left turn into a driveway in front of a southbound 1963 sedan operated by Chester H. Roush Jr., 21, of 439 Broadway, Wellsville, the Ohio Highway Patrol at Lisbon said.

Roush, in an effort to avoid hitting the Muskgrove auto, swerved off the road and went through a fence.

There were no injuries in the accident timed at 3:10 p.m.

In another mishap Wednesday afternoon, Terry K. Hoffman, 18, of 519 E. 4th St. was driving a 1962 convertible south on Route 45, about 4 miles north of Lisbon, at 2:50 p.m. when the hood of the car came up and struck the windshield.

HINTS FROM HELOISE

A Helpful Yuletide Idea

DEAR FOLKS: Every year people write and want to know how to paint pine cones and leaves for decorative arrangements during the holidays.

Heloise

Get an old coffee can or a plastic bleach bottle which has the top cut off and fill it about three-quarters with tap water.

LETTER OF LAUGHTER

Pour some paint (NOT water paint. Use house paint, etc.) in the water. The paint will float on top of the H2O.

Any color — silver, gold or flat white is beautiful!

Dip your dry pine cones into this slowly and they will come out ever so lovely! Place 'em on newspapers to dry. If you make a mistake the first time. . . they can be dipped again with no harm done.

When it comes to painting a branch of holly with a lot of leaves, why don't you paint only the top side? I do this by covering the red berries with a small piece of foil, laying the branch on paper then spray-painting the leaves.

When the bit of foil is removed, the beautiful red berries will show, the top of the leaves will be white or silver (some people like gold) and all the underneath leafy part is green!

The branches have beautiful contrasting colors. Lovely for centerpieces, mantels or when a sprig is attached to the top of a lovely Christmas package — that saves the price of an expensive bow . . .

HELOISE.

DEAR HELOISE: Last night while cutting my little girl's bangs, she picked up a piece of lined notebook paper and put it under her bangs to keep the short falling hairs out of her nose and eyes. I took a look at the lines — then cut the bangs along one of them. Wow! She ended up for the first time with perfectly straight bangs.

GLORIA CLANTON.

DEAR HELOISE: I know that many times an accident victim is brought unconscious to a hospital emergency room without identification.

I have put a card back to back with my driver's license (both together in a plastic card-holder) with the following information:

Blood-type, drug allergies, my doctor's name and phone number, accident insurance company and policy number. Also the names of two people to be contacted in case of an accident.

I'd sure like to see the driver's license cards or forms of all states have a place on the reverse side for this information.

EMGERGENCY ROOM VOLUNTEER.

Blessed are YOU for your volunteer work.

Inadequately Compensated

Auto Dealers Spokesman Attacks Big Car Makers

WASHINGTON (AP) — A spokesman for auto dealers said today they are inadequately compensated by the big car makers for warranty repair work and have to try and make up the difference on other parts of their business.

Warren J. McEleney, speaking for the National Automobile Association, said in a prepared statement that the extended warranty introduced in 1962 has forced car sellers to do repair work at a loss.

McEleney, a Clinton, Iowa car dealer, said that the car manufacturers don't repay their franchises enough on the warranty repairs and sales profits aren't large enough to make up the difference.

He told a Senate antitrust subcommittee that if a businessman feels he must take a loss, he will make every effort to minimize the deficit and to compensate for it by gaining additional revenue from other sources.

"How a dealer will attempt to recoup his warranty losses after absorbing as much as he can afford is difficult to determine," McEleney said. "Such an effort could be reflected in his new or used car sales or in his retail service department."

The subcommittee has been investigating the cost of auto repairs.

In other prepared testimony William W. Winpisinger, general vice president of the International Association of Machinists and Aerospace Workers, said the warranty system hurts mechanics as well as dealers.

He said that because the factory pays the dealer less for warranty work than the dealer could normally charge the public, the dealer "naturally wants to pay the mechanic less for this type of work."

The manufacturer's attempt to set prices for warranty work —prices lower than those charged other customers — not only violates the spirit of the nation's labor relations policies but the intent of the nation's antitrust laws," Winpisinger said.

Winpisinger said manufacturers have tried to maintain tight control over repair procedures and wages through flat rate manuals that establish recommended times to be charged for specific work.

He not only objected to this piecework system for mechanics but he said it has drawbacks for customers, such as not allowing the mechanic time to do any checking or trouble-shooting on the customer's behalf.

Inadequately Compensated

Auto Dealers Spokesman Attacks Big Car Makers

WASHINGTON (AP) — A spokesman for auto dealers said today they are inadequately compensated by the big car makers for warranty repair work and have to try and make up the difference on other parts of their business.

Warren J. McEleney, speaking for the National Automobile Association, said in a prepared statement that the extended warranty introduced in 1962 has forced car sellers to do repair work at a loss.

McEleney, a Clinton, Iowa car dealer, said that the car manufacturers don't repay their franchises enough on the warranty repairs and sales profits aren't large enough to make up the difference.

He told a Senate antitrust subcommittee that if a businessman feels he must take a loss, he will make every effort to minimize the deficit and to compensate for it by gaining additional revenue from other sources.

"How a dealer will attempt to recoup his warranty losses after absorbing as much as he can afford is difficult to determine," McEleney said. "Such an effort could be reflected in his new or used car sales or in his retail service department."

The subcommittee has been investigating the cost of auto repairs.

In other prepared testimony William W. Winpisinger, general vice president of the International Association of Machinists and Aerospace Workers, said the warranty system hurts mechanics as well as dealers.

He said that because the factory pays the dealer less for warranty work than the dealer could normally charge the public, the dealer "naturally wants to pay the mechanic less for this type of work."

The manufacturer's attempt to set prices for warranty work —prices lower than those charged other customers — not only violates the spirit of the nation's labor relations policies but the intent of the nation's antitrust laws," Winpisinger said.

Winpisinger said manufacturers have tried to maintain tight control over repair procedures and wages through flat rate manuals that establish recommended times to be charged for specific work.

He not only objected to this piecework system for mechanics but he said it has drawbacks for customers, such as not allowing the mechanic time to do any checking or trouble-shooting on the customer's behalf.

ANN LANDERS

A Girl Who Went To Pot

By Ann Landers

Dear Ann Landers: If you need a letter from a 19-year-old girl who has smoked marijuana and can tell the world what it's like, here it is:

For months my friends talked about pot parties. They insisted marijuana is harmless — that it's less damaging than liquor — not habit-forming, no withdrawal symptoms, no hangover, and cheaper. I decided to try it.

At first we smoked in groups and everybody got high. Each of us paid the "host" who bought the grass from a pusher. Then we began to smoke in pairs. After a few weeks I started to smoke alone. I bought the stuff by the ounce from a friend.

After awhile I had trouble making simple decisions. I had to ask my sister which dress to wear to work. I found myself asking the girl at the next desk how to spell simple words. I began putting things off because I couldn't make up my mind about anything. I lost my appetite and couldn't sleep.

I used to read a lot, but suddenly I couldn't concentrate long enough to finish a magazine article. I had trouble getting up in the morning. My supervisor told me if I was late again I'd better look for another job. It was then that I decided to get off the junk.

The first day was fine. The second day I was jittery. The third day, all the problems I'd been running from hit me in the face. I knew then I was in worse shape than I ever had been in before. I was determined to kick the habit and I've gone through hell but, thank God, I licked it.

It's been five weeks since I've had a smoke. I'm almost back to normal, but not quite. I shudder when I think of how close I came to wrecking my life with this "harmless" drug.

I started smoking because I was curious. I kept it up because it made the things I worried about seem unimportant. I know now the only way to handle problems is to face them and work them out. People who go to pot — go to pot. — NEARLY HOOKED.

-:-

Dear Nearly: I can add nothing to your letter but my thanks to you for writing it.

Widow Weeps

Dear Ann: They say when a woman's husband dies, her whole world changes.

I became a widow two weeks ago and I can attest to the truth of this statement. I did not expect to get it in writing, however. Three of my friends spelled it out in their "sympathy" letters. The most revealing note closed as follows: "It was an honor and a pleasure to have known you both."

In other words, "This is it, Toots. Get lost."

An extra woman is a fifth wheel — a problem to hostesses everywhere. I know, too, some women consider a widow a threat as well as a nuisance. But must they put it in a sympathy letter?

Please tell your readers if they can't think of anything supportive to say to simply buy a card and sign it. — SAN FRANCISCO.

-:-

Dear Fran: I'm sure your friend did not mean, "Get lost." She merely used an unfortunate combination of words.

The wise and worthy widows are not abandoned by real friends. They keep them — and make more.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Housing Renovation Project Gets Local Group's Approval

East Liverpool should move ahead with plans for a program for renovation and rehabilitation of housing, it was decided Wednesday night by a group of 14 municipal officials and citizens during a meeting at City Hall.

The meeting brought together members of a 20-man delegation which went to Lorain Nov. 20 to study and obtain data on several programs in that city covering rehabilitation of existing housing as well as construction of new units for the elderly and low-income families.

—:—

THE PROGRAM here probably will be administered through the Columbiana Metropolitan Housing Authority, which has been in contact with federal agencies for more than two years in the course of planning for housing for the elderly and for low-income families. Merrill D. Hall is the director.

In deciding to proceed with an investigation of a program similar to Lorain's, the group agreed a study of rehabilitation procedures would take precedence. James Lowe, chairman, and his housing advisory committee will act as steering committee for the work.

The group decided that definite action will wait until after the year-end holidays. Then it expects to call another meeting of all interested parties, including contractors, realtores and developers.

In the visit at Lorain, the group found that privately-owned housing — individual homes as well as multi-family units— were renovated with loans granted at very low interest rates. Some of the units were occupied by low-income families who were aided under the federal rent subsidy program.

THE MEETING in the office of Planning Coordinator Don Eckert was attended by Lowe. George Steele, James Grafton and J. Clifford Conley of the City Planning Commission; Council President Norman Bucher; H. E. Dierker and Michael Turk of the city technical advisory committee; Charles Sayre, also of the housing advisory committee; Russell Keefer, representing Wellsville City Council; Hall; A. L. Eaton, also of the housing authority; H. James Allison of the First Federal Savings & Loan Association, Glen V. Wilson, realtor, and Marvin Wooley, city zoning and building inspector.

Wellsville Motorist Cited On Two Counts

A Wellsville youth was cited on two counts as the result of an accident in Wellsville this morning at 5:15.

Wellsville police said Gary Mason, 15, of 227 3rd St. was driving a 1955 sedan west on Main St. and when he attempted to make a right turn into 6th St. his car struck a mailbox, a parking meter and the spouting on the Central Federal Savings and Loan Association.

Mason was cited to juvenile authorities for reckless operation and for driving a vehicle without an operator's license.

A limb loosened this morning by the strong wind from a tree on W. 9th St., Wellsville, fell on the 1966 auto belonging to Raymond J. Rolley of 1733 Lincoln Ave., scratching the body.

Housing Renovation Project Gets Local Group's Approval

East Liverpool should move ahead with plans for a program for renovation and rehabilitation of housing, it was decided Wednesday night by a group of 14 municipal officials and citizens during a meeting at City Hall.

The meeting brought together members of a 20-man delegation which went to Lorain Nov. 20 to study and obtain data on several programs in that city covering rehabilitation of existing housing as well as construction of new units for the elderly and low-income families.

—:—

THE PROGRAM here probably will be administered through the Columbiana Metropolitan Housing Authority, which has been in contact with federal agencies for more than two years in the course of planning for housing for the elderly and for low-income families. Merrill D. Hall is the director.

In deciding to proceed with an investigation of a program similar to Lorain's, the group agreed a study of rehabilitation procedures would take precedence. James Lowe, chairman, and his housing advisory committee will act as steering committee for the work.

The group decided that definite action will wait until after the year-end holidays. Then it expects to call another meeting of all interested parties, including contractors, realtores and developers.

In the visit at Lorain, the group found that privately-owned housing — individual homes as well as multi-family units— were renovated with loans granted at very low interest rates. Some of the units were occupied by low-income families who were aided under the federal rent subsidy program.

THE MEETING in the office of Planning Coordinator Don Eckert was attended by Lowe, George Steele, James Grafton and J. Clifford Conley of the City Planning Commission; Council President Norman Bucher; H. E. Dierker and Michael Turk of the city technical advisory committee; Charles Sayre, also of the housing advisory committee; Russell Keefer, representing Wellsville City Council; Hall; A. L. Eaton, also of the housing authority; H. James Allison of the First Federal Savings & Loan Association, Glen V. Wilson, realtor, and Marvin Wooley, city zoning and building inspector.

Wellsville Motorist Cited On Two Counts

A Wellsville youth was cited on two counts as the result of an accident in Wellsville this morning at 5:15.

Wellsville police said Gary Mason, 15, of 227 3rd St. was driving a 1955 sedan west on Main St. and when he attempted to make a right turn into 6th St. his car struck a mailbox, a parking meter and the spouting on the Central Federal Savings and Loan Association.

Mason was cited to juvenile authorities for reckless operation and for driving a vehicle without an operator's license.

A limb loosened this morning by the strong wind from a tree on W. 9th St., Wellsville, fell on the 1966 auto belonging to Raymond J. Rolley of 1733 Lincoln Ave., scratching the body.

Some New Light On Old Subject

By VIVIAN BROWN
AP Newsfeatures Writer

Ceiling light fixtures have been inching their way back into fashion for many years.

In the last three decades, many home owners removed ceiling fixtures and capped the outlets in favor of lamps and wall sconces. The old - time fixtures weren't particularly pretty though they were more useful as decorative accessories than instruments of good light.

Now one sees massive ceiling lights — crystal, metal, wood, even in small urban apartments. Newer fixtures are designed to spread the light and enhance the decorative scheme whether used in the kitchen, living room or dining room.

But many people are still stuck with capped outlets and with old - fashioned ceiling fixtures, even though they would like a new fixture. The extent of such a project and the uncertainty of labor costs keep them from updating their ceiling.

—:—

WELL, why not do it yourself? Installation of new fixtures is neither complicated nor dangerous, advises the American Home Lighting Institute.

They advise getting the proper equipment — pliers, wrench, scissors, file and electrician's tape. Installation instructions and necessary hardware should come with the fixture. It is worth checking the contents of the package before beginning. If something is missing from the kit, be sure you get it before you begin the project.

Before beginning the job, check local laws. Some communities encourage people to do their own wiring and provide home owners with information on doing such jobs safely and properly. Others insist that only licensed electricians may do the work.

Here are the lighting institute's directions for putting in a new fixture:

First, turn off current to the old fixture. (It may even be better to throw the main switch at the fuse box, if you are squeamish about it or can't identify the right one.)

—:—

NEXT, remove the canopy covering the fixture mounting and clip the two fixture wires. Remove the fixture from the mounting. Old - style fixtures usually are screwed to a center - threaded stud in the ceiling box. Some are fastened to metal straps which are in turn attached to the box with screws and can be removed by loosening screws that hold the fixture to the strap.

If the old fixture strap is the same as the new one, leave it in place. Otherwise, mount the new fixture strap and attach the fixture to the strap with screws or bolts that come with it. You are ready to make wire connections.

Expose the ends of the wire that protrude from the ceiling and those of the fixture by removing insulation down to bare, clean copper wire.

One ceiling wire may be black, the other white. Match black fixture wire to black ceiling wire and twist bared ends of the wire together. Do the same with white wires.

Wrap the splice securely with electrician's tape or use one of the variety of solderless connectors available in electrical supply or hardware stores. If you choose the tape method, place a few drops of solder on the splice before wrapping it. You may need a soldering iron or new type of solder that is applied from a tube and melted in the heat of a match flame.

Push the connected wires as close around the fixture mounting as possible, making certain that wires will not rub against any surface that might wear the insulation and expose the wires.

Finally, cover the mounting with the new canopy, install necessary light bulbs and diffusing bowl or glass, if any. Then replace the main fuse or throw on the main switch.

About 80 per cent of Hong Kong's population share their houses with others and less than 10 per cent of all households have a living room not used for sleeping.

Tips Are Offered On Right Spacing Of Door Hinges

Question: I am making a finished room in our basement and so far things are coming along pretty well. Now I have to tackle the problem of hanging two doors. Can you tell me where the hinges should go? I've measured some other doors in our house and find the hinges are at different distances from the top and bottom. The two doors I bought are 80 inches high and 24 inches wide.

Answer: The recommended distances for a door of that size are 5 inches from the top and 10 inches from the bottom. That is, the top hinge should be 5 inches from the top of the door: the bottom hinge 10 inches from the bottom of the door. For extra strength and insurance against future sagging, you might want to install a third hinge midway between the other two.

—:—

QUESTION: My husband says wallpapering is for women and that I should paper our dining room wall. He says he read somewhere that women do a better job of it. Is he right?

Answer: While professional paperhangers are men, there is a theory that women are more adept at it. But if you aren't too anxious about doing it and are looking for a counterargument, try this: there is an actual historical account of how George Washington and the Marquis de Lafayette collaborated in wallpapering a banquet room. They did all the physical work while (and this is your clincher) Martha Washington supervised the project.

The Peace Corps has appointed at least nine former Volunteers as country directors; six of them were named while still in their twenties.

Potter Cagers Open Saturday With Westinghouse

HARDWOOD HOPEFULS. Members of the East Liverpool High basketball team, front from left, are Al Talkington, Jerry Christian, Dan Cunningham, Rick Steffen, Bill Montgomery, Steve Douglas and John Johnson. Rear from left are Jim Moore, Ralph Seevers, Jim Massey, Tom Chambers, Nelson Clark, Tom Emmerling, assistant coach Jim Quinn and coach Clint McConnell.

First Game At New Gym

By TURK PIERCE
Review Sports Editor

"These kids have the greatest attitude of any group I've ever coached", says Clint McConnell of the 1968-69 East Liverpool High School basketball team.

"Our schedule is such that we must get up for every game", McConnell says, "but maybe this bunch can do it".

The Potters lost starters Bruce Christian, Mitch Jones, Earl Diddle and Mike McVay plus Don Lacy and Dale Jones from last year's 19-2 team, and McConnell is under no illusions that this year's team is as talented. "Our defense is not as strong as last year," he notes. "I'll be satisfied with a 12-6 record."

The Potters play 18 different teams, with only 11 home games compared to 13 last season. The season gets under way with Pittsburgh Westinghouse at the new high school Saturday night, with the reserve game at 6:30 and the varsity contest at 8.

Jerry Christian, 6-4, is the center for the Potters, and will be depended upon to do most of the rebounding. "Jerry must cover more territory this year than last year", McConnell notes.

Rick Steffen and Bill Montgomery, both 6-1 senior lettermen, will be at the forward positions. Montgomery has been shooting well in practice. Both must do more rebounding than last year, when they could afford to shoot from outside due to the superior Potter height.

Two more senior lettermen will round out the starting lineup, 5-10 Dan Cunningham, who will be the main ball-handler, and 6-0 John Johnson, the top defensive player on the team. Johnson has been hampered by a shoulder injury suffered in the football finale against Alliance.

Top reserve in the backcourt is 6-0 senior Nelson (Sonny) Clark, who didn't play last season. Steve Douglas, a 6-2 senior, is the top reserve for the front line. The other senior on the squad, Tom Chambers, was slowed by a football achilles tendon injury, and just started working out this week.

Another player who may help inside is 6-2 sophomore Jim Moore, who starred at Westgate last year. Ralph Seevers, a 6-0 sophomore from East, is also on the varsity squad.

Juniors on the team are 6-1 Jim Massey, a good shooter who needs to be more aggressive; 6-0 Tom Emmerling, a good rebounder; and 6-0 Alvin Talkington, who couldn't make the reserves last year but improved tremendously by playing over the summer.

There are 17 players on the reserve squad, handled by Laine Turner, and 15 will dress for each game

McConnell calls this year's team a better-shooting one than last year, but since it is much shorter, the Potters will have to run more and move the ball around more.

This year's edition of Westinghouse promises to be tougher than the one that lost 55-39 at the M. A. last year. Coach Ed Fleming, former NBA player, has a tall team, and the Bulldogs surprised Monaca 61-47 at Monaca Tuesday night. The Indians won the Section 6 title a year ago, and while they are not as strong this year, the Westinghouse win was an eye-opener.

Big guns for the Pittsburgh team are Darrell Brown, who scored 25, and Leon Wallace, who got 23. McConnell reports that the Bulldogs have some good height and some real leapers, made only five turnovers the whole game and cut off the Monaca fast break.

The schedule:

Dec. 7—Pittsburgh Westinghouse
Dec. 13—Pittsburgh South
Dec. 14—Akron Garfield
Dec. 20—at Aliquippa
Dec. 21—at Cambridge
Dec. 28—Pittsburgh Fifth Avenue

Dick Hall, former Pirate pitcher and outfielder who also has played for the A's, Orioles and Phillies, claims a record for the most major league parks played in.

Going back to the days of Braves Field in Boston, Hall has played in 27 parks. He recently was released by the Phillies, and hopes to catch on with the Orioles. Just so he can play in the new parks in Oakland and Seattle, no doubt.

ONLY SIX MEN on the 22-man West Virginia U. wrestling roster are from the state of West Virginia.

THE EARLY "line" on the Rose Bowl has Ohio State a 1½ point favorite. Best bet is that the Buckeyes will be favored by more than that at game time.

JARRETT DURHAM of Aliquippa was named MVP after Duquesne whipped Long Island U. in the season cage opener Saturday night.

And speaking of Aliquippa, the 'Quips, a Potter foe later this month, were impressive in their opener, beating a strong Duquesne High team, with 6-6 Dwight Kenner throwing in 31 points.

Oak Glen-Langley A Split

Yogis Agree On 6 Games Pick Potters Unanimously

The Review Yogis, battered but unbowed after football season, will turn their talents to basketball this week, concentrating exclusively on high school games.

Amazingly, for so early in the season, there are four identical sets of predictions, turned in by Turk Pierce, Bob Shaffer, Chuck Campbell and Ed Clutter.

Six of the ten games are unanimous choices, with everyone taking Midland over Wellsville, North Lima over Beaver Local, East Palestine over West Branch, East Liverpool over Pittsburgh Westinghouse, Wellsville over Jefferson Union and Springfield over Southern Local.

Pete Weaver is a lone dissenter in taking Crestview over Beaver Local. Lorin Howard, a new yogi, sides with Rose Nuzzo in taking Greenford over Leetonia, and sides with Bob Duffy in taking United over Leetonia.

One game produced a 4-4 split. Howard, Duffy, Weaver and Nuzzo all took Pittsburgh Langley over Oak Glen, while the four consensus pickers went with the Golden Bears.

By TED MEIER
Associated Press Sports Writer

Spencer Haywood and Calvin Murphy, who figure to be a couple of hot shots in college basketball this season, each enjoyed 38 - point scoring sprees Wednesday night.

Haywood, star of the U.S. Olympic team, led the 15th-ranked Detroit Titans to a 103-48 romp over Windsor, Ont., for their third straight. Murphy paced the Niagara Purple Eagles over Buffalo State 118-97. Both were home court victories.

Haywood, a 6-foot-8 sophomore, now has scored 112 points in three games. Murphy, a 5-10 sharpshooting junior who finished second in last year's national scoring race, has 64 in two games for Niagara.

John Tolmie threw in 33 points to lead Navy over Harvard 70-58 at Annapolis while Aaron Jenkins and Bill Cain combined for 48 points to spearhead Iowa State over 20th ranked Tennessee 72-66 at Knoxville.

Jenkins tallied 25 and Cain 23 as Iowa State handed the Vols their first home court defeat in eight years to a non-SEC Conference foe.

Two quick baskets by Jenkins stifled a Tennessee rally when the Vols had crept to within 48-47.

None of the Top Ten teams in the Associated Press poll saw action. St. Bonaventure, No. 11 opened its season with a 111-70 romp over Detroit College at Olean as Bob Lanier and Jim Satalin each tallied 23 points.

California, No. 19, opened at home by defeating San Jose State 103-98 while Iowa, tied for No. 20 with Tennessee, downed Northern Michigan at home 99-69.

St. Joseph's of Philadelphia went two overtimes to down Bowling Green on the road 90-88. Ed Leonarczyk gave the Hawks a 74-74 tie at the end of regulation time with a basket as the buzzer sounded.

Dick Rudgers scored as the buzzer sounded ending the first OT to give Bowling Green an 82-82 tie. Jim Lynch's layup in the final second of the second extra period finally won for St. Joseph's.

Hank South got 34 points to lead Cornell over Syracuse 93-81 at Ithaca while Fordham whipped Yale 98-85 in New York.

In other home court victories, Alabama trounced Texas 88-62, Dayton downed Gannon 91-71, Chicago Loyola whipped St. John's of Minnesota 90-63, Memphis State thumped Texas, Arlington, 81-49 and LaSalle inaugurated its Tom Gola coaching regime by swamping Baltimore Univ., 100-57.

Threaten Strike

Baseball Players Want Share Of TV Money

SAN FRANCISCO (AP) — "I don't think the owners think we're serious," said Pitteburgh pitcher Jim Bunning. "We're trying to convince them that we are."

The Major League Players Association dropped a bombshell into the serene midst of the annual winter baseball meetings Wednesday—previously nothing more exciting than the lowering of the pitcher's mound had occurred—when they asked players not to sign their 1969 contracts until the dispute was settled.

In their statement, signed by about 100 players and read to a crowded hallway press conference by Marvin Miller, executive director of the Players Association, the players accused the owners of making various threats to the players to get them to sign their contracts.

"Some of the clubs, but not all," Miller said, "have engaged in a program of pressuring players in an attempt to have them sign contracts.

"Young players have been told to sign now or play in the minor leagues next year. Others... have been told that they will never get the necessary five years of service unless they sign."

"Veterans have been told that baseball has a long memory, and if they refuse to sign now, they should forget about staying in baseball after their careers have ended," he said.

Warren Giles, president of the National League, denied threats had been made.

"I can't believe it," he said. I'm not saying anybody's lying, but I know of no instances of threats being made."

Bunning, player representative of the Pirates, disagreed, saying, "A lot of players who are indebted to their ball clubs have been threatened to sign or else. A lot of players borrowed money to tide them over the winter."

The players are demanding a percentage of radio and television receipts. The owners insist that they will pay only a flat fee and will not negotiate the matter of percentages.

Jerold C. Hoffberger, an owner of the Baltimore Orioles and member of the owners' player-relations committee, said, "I don't believe the players should share in the radio-TV money any more than the gate receipts or the sale of peanuts."

He added, "If players want a guarantee on TV income, fine. But I want to know: Will they be willing to accept a decrease if it goes down? There's no guarantee it will stay up there."

Baseball recently signed a television deal worth $49.50 million over the next three years, a substantial increase from previous contracts.

When Michigan beat Indiana 27-22 this fall each team gained 265 yards on the ground, 162 yards in the air and completed 14 passes.

Potter Cagers Open Saturday With Westinghouse

HARDWOOD HOPEFULS. Members of the East Liverpool High basketball team, front from left, are Al Talkington, Jerry Christian, Dan Cunningham, Rick Steffen, Bill Montgomery, Steve Douglas and John Johnson. Rear from left are Jim Moore, Ralph Seevers, Jim Massey, Tom Chambers, Nelson Clark, Tom Emmerling, assistant coach Jim Quinn and coach Clint McConnell.

First Game At New Gym

By TURK PIERCE
Review Sports Editor

"These kids have the greatest attitude of any group I've ever coached", says Clint McConnell of the 1968-69 East Liverpool High School basketball team.

"Our schedule is such that we must get up for every game", McConnell says, "but maybe this bunch can do it".

The Potters lost starters Bruce Christian, Mitch Jones, Earl Diddle and Mike McVay plus Don Lacy and Dale Jones from last year's 19-2 team, and McConnell is under no illusions that this year's team is as talented. "Our defense is not as strong as last year," he notes. "I'll be satisfied with a 12-6 record."

The Potters play 18 different teams, with only 11 home games compared to 13 last season. The season gets under way with Pittsburgh Westinghouse at the new high school Saturday night, with the reserve game at 6:30 and the varsity contest at 8.

Jerry Christian, 6-4, is the center for the Potters, and will be depended upon to do most of the rebounding. "Jerry must cover more territory this year than last year", McConnell notes.

Rick Steffen and Bill Montgomery, both 6-1 senior lettermen, will be at the forward positions. Montgomery has been shooting well in practice. Both must do more rebounding than last year, when they could afford to shoot from outside due to the superior Potter height.

Two more senior lettermen will round out the starting lineup, 5-10 Dan Cunningham, who will be the main ball-handler, and 6-0 John Johnson, the top defensive player on the team. Johnson has been hampered by a shoulder injury suffered in the football finale against Alliance.

Top reserve in the backcourt is 6-0 senior Nelson (Sonny) Clark, who didn't play last season. Steve Douglas, a 6-2 senior, is the top reserve for the front line. The other senior on the squad, Tom Chambers, was slowed by a football achilles tendon injury, and just started working out this week.

Another player who may help inside is 6-2 sophomore Jim Moore, who starred at Westgate last year. Ralph Seevers, a 6-0 sophomore from East, is also on the varsity squad.

Juniors on the team are 6-1 Jim Massey, a good shooter who needs to be more aggressive; 6-0 Tom Emmerling, a good rebounder; and 6-0 Alvin Talkington, who couldn't make the reserves last year but improved tremendously by playing over the summer.

There are 17 players on the reserve squad, handled by Laine Turner, and 15 will dress for each game

McConnell calls this year's team a better-shooting one than last year, but since it is much shorter, the Potters will have to run more and move the ball around more.

This year's edition of Westinghouse promises to be tougher than the one that lost 55-39 at the M. A. last year. Coach Ed Fleming, former NBA player, has a tall team, and the Bulldogs surprised Monaca 61-47 at Monaca Tuesday night. The Indians won the Section 6 title a year ago, and while they are not as strong this year, the Westinghouse win was an eye-opener.

Big guns for the Pittsburgh team are Darrell Brown, who scored 25, and Leon Wallace, who got 23. McConnell reports that the Bulldogs have some good height and some real leapers, made only five turnovers the whole game and cut off the Monaca fast break.

The schedule:

Dec. 7—Pittsburgh Westinghouse
Dec. 13—Pittsburgh South
Dec. 14—Akron Garfield
Dec. 20—at Aliquippa
Dec. 21—at Cambridge
Dec. 28—Pittsburgh Fifth Avenue

Dick Hall, former Pirate pitcher and outfielder who also has played for the A's, Orioles and Phillies, claims a record for the most major league parks played in.

Going back to the days of Braves Field in Boston, Hall has played in 27 parks. He recently was released by the Phillies, and hopes to catch on with the Orioles. Just so he can play in the new parks in Oakland and Seattle, no doubt.

THE EARLY "line" on the Rose Bowl has Ohio State a 1½ point favorite. Best bet is that the Buckeyes will be favored by more than that at game time.

JARRETT DURHAM of Aliquippa was named MVP after Duquesne whipped Long Island U. in the season cage opener Saturday night.

And speaking of Aliquippa, the 'Quips, a Potter foe later this month, were impressive in their opener, beating a strong Duquesne High team, with 6-6 Dwight Kenner throwing in 31 points.

Yogis Agree On 6 Games Pick Potters Unanimously

The Review Yogis, battered but unbowed after football season, will turn their talents to basketball this week, concentrating exclusively on high school games.

Amazingly, for so early in the season, there are four identical sets of predictions, turned in by Turk Pierce, Bob Shaffer, Chuck Campbell and Ed Clutter.

Six of the ten games are unanimous choices, with everyone taking Midland over Wellsville, North Lima over Beaver Local, East Palestine over West Branch, East Liverpool over Pittsburgh Westinghouse, Wellsville over Jefferson Union and Springfield over Southern Local.

Pete Weaver is a lone dissenter in taking Crestview over Beaver Local. Lorin Howard, a new yogi, sides with Rose Nuzzo in taking Greenford over Leetonia, and sides with Bob Duffy in taking United over Leetonia.

One game produced a 4-4 split. Howard, Duffy, Weaver and Nuzzo all took Pittsburgh Langley over Oak Glen, while the four consensus pickers went with the Golden Bears.

Haywood Gets 38 In Win

By TED MEIER
Associated Press Sports Writer

Spencer Haywood and Calvin Murphy, who figure to be a couple of hot shots in college basketball this season, each enjoyed 38 - point scoring sprees Wednesday night.

Haywood, star of the U.S. Olympic team, led the 15th-ranked Detroit Titans to a 103-48 romp over Windsor, Ont., for their third straight. Murphy paced the Niagara Purple Eagles over Buffalo State 118-97. Both were home court victories.

Haywood, a 6-foot-8 sophomore, now has scored 112 points in three games. Murphy, a 5-10 sharpshooting junior who finished second in last year's national scoring race, has 64 in two games for Niagara.

John Tolmie threw in 33 points to lead Navy over Harvard 70-58 at Annapolis while Aaron Jenkins and Bill Cain combined for 48 points to spearhead Iowa State over 20th ranked Tennessee 72-66 at Knoxville.

Jenkins tallied 25 and Cain 23 as Iowa State handed the Vols their first home court defeat in eight years to a non-SEC Conference foe.

Two quick baskets by Jenkins stifled a Tennessee rally when the Vols had crept to within 48-47.

None of the Top Ten teams in the Associated Press poll saw action. St. Bonaventure, No. 11 opened its season with a 111-70 romp over Detroit College at Olean as Bob Lanier and Jim Satalin each tallied 23 points.

California, No. 19, opened at home by defeating San Jose State 103-98 while Iowa, tied for No. 20 with Tennessee, downed Northern Michigan at home 99-69.

St. Joseph's of Philadelphia went two overtimes to down Bowling Green on the road 90-88. Ed Leonarczyk gave the Hawks a 74-74 tie at the end of regulation time with a basket as the buzzer sounded.

Dick Rudgers scored as the buzzer sounded ending the first OT to give Bowling Green an 82-82 tie. Jim Lynch's layup in the final second of the second extra period finally won for St. Joseph's.

Hank South got 34 points to lead Cornell over Syracuse 93-81 at Ithaca while Fordham whipped Yale 98-85 in New York.

In other home court victories, Alabama trounced Texas 88-62, Dayton downed Gannon 91-71, Chicago Loyola whipped St. John's of Minnesota 90-63, Memphis State thumped Texas, Arlington, 81-49 and LaSalle inaugurated its Tom Gola coaching regime by swamping Baltimore Univ., 100-57.

Threaten Strike

Baseball Players Want Share Of TV Money

SAN FRANCISCO (AP) — "I don't think the owners think we're serious," said Pitteburgh pitcher Jim Bunning. "We're trying to convince them that we are."

The Major League Players Association dropped a bombshell into the serene midst of the annual winter baseball meetings Wednesday—previously nothing more exciting than the lowering of the pitcher's mound had occurred—when they asked players not to sign their 1969 contracts until the dispute was settled.

In their statement, signed by about 100 players and read to a crowded hallway press conference by Marvin Miller, executive director of the Players Association, the players accused the owners of making various threats to the players to get them to sign their contracts.

"Some of the clubs, but not all," Miller said, "have engaged in a program of pressuring players in an attempt to have them sign contracts.

"Young players have been told to sign now or play in the minor leagues next year. Others... have been told that they will never get the necessary five years of service unless they sign."

"Veterans have been told that baseball has a long memory, and if they refuse to sign now, they should forget about staying in baseball after their careers have ended," he said.

Warren Giles, president of the National League, denied threats had been made.

"I can't believe it," he said. I'm not saying anybody's lying, but I know of no instances of threats being made."

Bunning, player representative of the Pirates, disagreed, saying, "A lot of players who are indebted to their ball clubs have been threatened to sign or else. A lot of players borrowed money to tide them over the winter."

The players are demanding a percentage of radio and television receipts. The owners insist that they will pay only a flat fee and will not negotiate the matter of percentages.

Jerold C. Hoffberger, an owner of the Baltimore Orioles and member of the owners' player-relations committee, said, "I don't believe the players should share in the radio-TV money any more than the gate receipts or the sale of peanuts."

He added, "If players want a guarantee on TV income, fine. But I want to know: Will they be willing to accept a decrease if it goes down? There's no guarantee it will stay up there."

Baseball recently signed a television deal worth $49.50 million over the next three years, a substantial increase from previous contracts.

When Michigan beat Indiana 27-22 this fall each team gained 265 yards on the ground, 162 yards in the air and completed 14 passes.

AP All-American Team Paced By O. J. Simpson

By DICK COUCH
Associated Press Sports Writer

NEW YORK (AP)—Southern California's O. J. Simpson, the runaway pacemaker in a season dominated by brilliant ball-carriers, heads the array of college football stars named today to The Associated Press 1968 All-America team.

Simpson, the Heisman Trophy winner who lugged the ball more times and gained more yards this fall than anyone ever had in one season, earned All-America honors for the second consecutive year.

★ ★ ★ ★ ★ ★

Foley Named

Versatile halfback Leroy Keyes of Purdue, pass-catching marvel Ron Sellers of Florida State and towering defensive end Ted Hendricks of Miami, Fla., join the Trojan flash as repeaters from the 1967 All-American squad.

Chris Gilbert, Texas' explosive tailback, moved up from last year's second team to nail a running back spot alongside Simpson and Keyes. Terry Hanratty, who masterminded Notre Dame's awesome attack until he was grounded by a November knee injury edged Kansas ace Bob Douglass for the quarterback post.

Tackle Bill Stanfill and safety Jake Scott, ringleaders of Georgia's mighty defense unit, were solid first team choices. Penn State and Tennessee also landed two standouts apiece on the 22-man squad, tight end Ted Kwalick and linebacker Dennis Onkotz representing the unbeaten Nittany Lions; offensive guard Charles Rosenfelder and linebacker Steve Kiner the Vols.

Scott, Onkotz, Kiner and the third linebacker, Mike Widger of Virgina Teich, were the only underclassmen selected.

Kwalick, a 6-foot-4, 230-pound strongman regarded as the finest college tight end in nearly a decade, mans one flank. Sellers, a slender, 6-foot-4 game-breaker who caught 86 passes to lead the nation and set an all-time career record for yards gained on receptions, holds down the other.

Dave Foley of Ohio State, a 255-pound blockbuster, and 235-pound Mike Montler of Colorado are the offensive tackles. Jarring Jim Barnes of Arkansas is Rosenfelder's running mate at guard and 242-pound John Didion of Oregon State, a second team pick last year, is the No. 1 center.

Joining Hendricks, Miami's 6-foot-8, 222-pound Mad Stork, and the 6-foot-5, 245-pound Stanfill on the defensive line are end John Zook of Kansas, mammoth tackle Joe Greene of North Texas State and tenacious middle guard Ed White of California. Greene is the heavyweight at 274 pounds. Zook goes 230 and White 245.

Al Worley, Washington's record-setting pass bandit, and premier punt returner Roger Wehrli of Missouri complete the deep secondary alongside Scott, who excelled in both departments for the bulldogs.

The AP All-America selectors had no trouble filling one running back berth. Simpson, a durable 207-pounder with 9.4 sprinter's speed and uncanny instinct for hitting the holes, was a landslide choice after leading the unbeaten Trojans to their second straight Pacific 8 Conference title.

O.J. rambled through and around opponents' stacked defenses for 1,709 yards, an all-time NCAA record, while averaging 36 carries per game and bolting for 22 touchdowns.

Behind the Southern Cal comet, however, there were more than half a dozen magnificent backs with credentials worthy of All-America Stature.

Keyes, although hampered by injuries, rambled for 1,003 rushing yards, caught passes and threw them, scored 15 touchdowns and played some defense for the Boilermakers. The 6-foot-3, 205-pound speedster placed second in the Heisman balloting.

Gilbert, a 180-pound wraith, was the workhourse in Texas' hard-driving full House backfield. He became the first back ever to roll up more than 1,000 yards for three straight years, finishing with 1,132 for a career total of 3,231—third highest in history.

Michigan's Ron Johnson, whose 347-yard, five-touchdown performance against Wisconsin was the biggest single-game spree ever, also topped the 1,000-yard mark. So did Oklahoma's Steve Owens, Houston's Paul Gipson, Oregon State's Bill "Earthquake" Enyart, Army's Charley Jarvis and West Texas State's Eugene "Mercury" Morris.

Hanratty rewrote the Notre Dame record book, eclipsing George Gipp's career total offense mark along the way, before torn knee ligaments, which required surgery, cut short his senior year at seven games.

Douglass, a slick southpaw passer and roll-out runner, sparked Kansas to a 9-1 regular season finish and an Orange Bowl berth opposite Penn State.

The selectors also were faced with a preponderance of excellent wide receivers. Jerry Levias, the 162-pound Southern Methodist bantam who snared 80 passes, and Jim Seymour, Hanratty's elusive aerial partner at Notre Dame, were just behind the Kwalick-Sellers combination—and just ahead of Stanford swifty Gen Washington and Oklahoma's Eddie Hinton.

Howe Scores 700th Goal

By The Associated Press

Mrs. Gordie Howe now can sit back in her seat—at least until another milestone crops up in the career of her hockey-playing husband.

"She says sitting on the edge of the seat gets tiring," Howe said Wednesday night after scoring his 700th regular-season goal in Detroit's 7-2 National Hockey League victory over Pittsburgh.

Howe's nearest rival, Maurice Richard of Montreal, has 544, but he retired in 1960.

While Howe was adding to his legend, the New York Rangers were beating Montreal 4-2 to move into first place ahead of the Canadiens in the East Division, Toronto was topping Minesota 4-2, Chicago was tying St. Louis 3-3 and Los Angeles was downing Philadelphia 3-1.

"It's getting tougher," said Howe. "I have to admit it's getting tougher."

But the 40-year-old veteran, now in his 23rd NHL season, shows no signs of slowing up. His 700th goal and 12th of the season was a 30-foot slapshot that tied the game at 1-1 in the first period and brought the 4,500 fans at Pittsburgh to their feet in a standing ovation.

Bruce MacGregor broke the tie later in the period and Red Wings went on to a rout, with Nick Libett picking up two goals and an assist.

The Rangers took a one-point lead over Montreal as Jean Ratelle scored two goals and Vic Hadfield one in the first period against goalie Ernie Wakely, called up from Cleveland of the American League, after Gump Worsley was ordered to rest and Rogatien Vachon was injured.

Ron Stewart scored for New York in the second period. Jacques Lemaire scored for the Canadiens in the first and Bobby Rousseau in the third.

Two goals by Dave Keon sparked Toronto past Minnesota. He made it 2-0 with a tip-in in the first and then scored the clincher on a breakaway in the second. Mike Walton and Norm Ullman also scored for Toronto while J. P. Parise and Wayne Connelly counted for Minnesota, now winless in its last eight games.

Goals within a span of 1:07 midway in the third period by Ab McDonald asd Gary Sabourin gave St. Louis, first in the West Division, its tie with Chicago.

Chicago had moved to a 3-1 lead on second-period goals by Doug Mohns and Eric Nesterenko. Jim Pappin scored for the Black Hawks and Red Berenson for St. Louis in the first stanza.

Eddie Joyal collected the three-goal hat trick in accounting for all of Los Angeles' goals in its victory over Philadelphia. The veteran center, who was the Kings' leading scorer last season, now has nine goals this year.

Guy Gendron produced the Flyers' lone goal at the expense of netminder Gerry Desjardins early in the opening period.

North Dakota State Small College Champ

By The Associated Press

Unbeaten North Dakota State today was named The Associated Press' small college football champions of 1968.

However, the rugged Bison, who methodically swept aside nine straight foes this year, just barely deprived San Diego State from winning its third straight crown.

The Pecan Bowl-bound Bison drew six of the 12 first-place votes and 220 points in the final balloting by a panel of sports writers and broadcasters.

San Diego State, small college champs in 1966 and 1967 after the Bison won it in 1965, had only three top votes, but picked up enough second ballot strength to roll up 204 points.

The only blemish on the Aztec's 10-game schedule was a 13-13 tie with Tennessee State Nov. 23, and and paved the way for North Dakota State to claim the championship.

Up to that point, San Diego State had been No. 1 and North Dakota State second in the previous polls.

Although most of the teams were idle last weekend, there was some minor shuffling among the other members of the top 20.

Chattanooga, 10-1, took over sole possession of third place with 162 points, while New Mexico State, 9-0, was fourth with 147. The two—both idle over the weekend—had been tied for third the previous week.

The next five positions remained unchanged with Indiana, Pa., 9-0, fifth; Texas A&I, 10-1, sixth; Eastern Michigan, 8-2, seventh; South Dakota, 9-1, eighth, and Eastern Kentucky, 8-2, ninth.

The top 20, with first-place votes, records and total points.

1.	No. Dak. St. (6)	9-0	220
2.	San Diego St. (3)	9-0-1	204

Steel City Wins Audley At Waterford

Keystone Stable's Steel City, the very model of consistency, raced through the sloppy going to win the fourth running of the Audley Handicap at Waterford Park Wednesday afternoon.

The victory, the first stakes win for the Pennsylvania-bred colt, was worth $5,980 to his owners.

Crying For More checked in second while Bast closed fastest of all in the field of 10 to gain third place.

The winner, who had not finished worse than third in 12 previous Waterford Park efforts, has only been out of the money once in his lifetime, and that was during his 1966 campaign as a two-year-old.

Crying For More, an invader from Charles Town, was sent postward as the favorite, mainly because his past performance lines revealed that he had high early speed and had outrun good horses sprinting.

At the start of the Audley, it appeared as though the fans had pegged the right horse.

AP All-American Team Paced By O. J. Simpson

By DICK COUCH
Associated Press Sports Writer

NEW YORK (AP)—Southern California's O. J. Simpson, the runaway pacemaker in a season dominated by brilliant ball-carriers, heads the array of college football stars named today to The Associated Press 1968 All-America team.

Simpson, the Heisman Trophy winner who lugged the ball more times and gained more yards this fall than anyone ever had in one season, earned All-America honors for the second consecutive year.

★ ★ ★ ★ ★ ★

Foley Named

Versatile halfback Leroy Keyes of Purdue, pass-catching marvel Ron Sellers of Florida State and towering defensive end Ted Hendricks of Miami, Fla., join the Trojan flash as repeaters from the 1967 All-American squad.

Chris Gilbert, Texas' explosive tailback, moved up from last year's second team to nail a running back spot alongside Simpson and Keyes. Terry Hanratty, who masterminded Notre Dame's awesome attack until he was grounded by a November knee injury edged Kansas ace Bob Douglass for the quarterback post.

Tackle Bill Stanfill and safety Jake Scott, ringleaders of Georgia's mighty defense unit, were solid first team choices. Penn State and Tennessee also landed two standouts apiece on the 22-man squad, tight end Ted Kwalick and linebacker Dennis Onkotz representing the unbeaten Nittany Lions; offensive guard Charles Rosenfelder and linebacker Steve Kiner the Vols.

Scott, Onkotz, Kiner and the third linebacker, Mike Widger of Virgina Teich, were the only underclassmen selected.

Kwalick, a 6-foot-4, 230-pound strongman regarded as the finest college tight end in nearly a decade, mans one flank. Sellers, a slender, 6-foot-4 game-breaker who caught 86 passes to lead the nation and set an all-time career record for yards gained on receptions, holds down the other.

Dave Foley of Ohio State, a 255-pound blockbuster, and 235-pound Mike Montler of Colorado are the offensive tackles. Jarring Jim Barnes of Arkansas is Rosenfelder's running mate at guard and 242-pound John Didion of Oregon State, a second team pick last year, is the No. 1 center.

Joining Hendricks, Miami's 6-foot-8, 222-pound Mad Stork, and the 6-foot-5, 245-pound Stanfill on the defensive line are end John Zook of Kansas, mammoth tackle Joe Greene of North Texas State and tenacious middle guard Ed White of California. Greene is the heavyweight at 274 pounds. Zook goes 230 and White 245.

Al Worley, Washington's record-setting pass bandit, and premier punt returner Roger Wehrli of Missouri complete the deep secondary alongside Scott, who excelled in both departments for the bulldogs.

The AP All-America selectors had no trouble filling one running back berth. Simpson, a durable 207-pounder with 9.4 sprinter's speed and uncanny instinct for hitting the holes, was a landslide choice after leading the unbeaten Trojans to their second straight Pacific 8 Conference title.

O.J. rambled through and around opponents' stacked defenses for 1,709 yards, an all-time NCAA record, while averaging 36 carries per game and bolting for 22 touchdowns.

Behind the Southern Cal comet, however, there were more than half a dozen magnificent backs with credentials worthy of All-America Stature.

Keyes, although hampered by injuries, rambled for 1,003 rushing yards, caught passes and threw them, scored 15 touchdowns and played some defense for the Boilermakers. The 6-foot-3, 205-pound speedster placed second in the Heisman balloting.

Gilbert, a 180-pound wraith, was the workhourse in Texas' hard-driving full House backfield. He became the first back ever to roll up more than 1,000 yards for three straight years, finishing with 1,132 for a career total of 3,231—third highest in history.

Michigan's Ron Johnson, whose 347-yard, five-touchdown performance against Wisconsin was the biggest single-game spree ever, also topped the 1,000-yard mark. So did Oklahoma's Steve Owens, Houston's Paul Gipson, Oregon State's Bill "Earthquake" Enyart, Army's Charley Jarvis and West Texas State's Eugene "Mercury" Morris.

Hanratty rewrote the Notre Dame record book, eclipsing George Gipp's career total offense mark along the way, before torn knee ligaments, which required surgery, cut short his senior year at seven games.

Douglass, a slick southpaw passer and roll-out runner, sparked Kansas to a 9-1 regular season finish and an Orange Bowl berth opposite Penn State.

The selectors also were faced with a preponderance of excellent wide receivers. Jerry Levias, the 162-pound Southern Methodist bantam who snared 80 passes, and Jim Seymour, Hanratty's elusive aerial partner at Notre Dame, were just behind the Kwalick-Sellers combination—and just ahead of Stanford swifty Gen Washington and Oklahoma's Eddie Hinton.

Howe Scores 700th Goal

By The Associated Press

Mrs. Gordie Howe now can sit back in her seat—at least until another milestone crops up in the career of her hockey-playing husband.

"She says sitting on the edge of the seat gets tiring," Howe said Wednesday night after scoring his 700th regular-season goal in Detroit's 7-2 National Hockey League victory over Pittsburgh.

Howe's nearest rival, Maurice Richard of Montreal, has 544, but he retired in 1960.

While Howe was adding to his legend, the New York Rangers were beating Montreal 4-2 to move into first place ahead of the Canadiens in the East Division, Toronto was topping Minesota 4-2, Chicago was tying St. Louis 3-3 and Los Angeles was downing Philadelphia 3-1.

"It's getting tougher," said Howe. "I have to admit it's getting tougher."

But the 40-year-old veteran, now in his 23rd NHL season, shows no signs of slowing up. His 700th goal and 12th of the season was a 30-foot slapshot that tied the game at 1-1 in the first period and brought the 4,500 fans at Pittsburgh to their feet in a standing ovation.

Astros Get Blefary; Kosco To Dodgers

SAN FRANCISCO (AP) — The baseball - trade market, which was slow in starting at the annual winter meetings, has heated up in a hurry.

Four deals were completed Wednesday—as many as had been made in the first two days of the meeting—and the most important result was the shipment of Curt Blefary, former rookie of the year, from Baltimore to Houston.

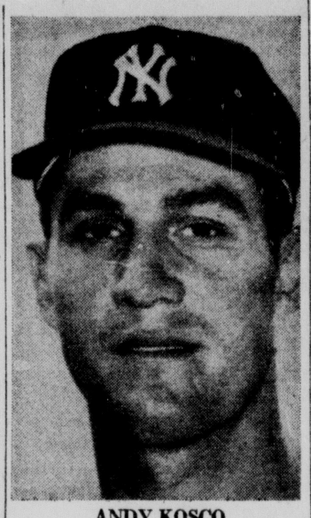
The five-player deal, one of three made by the Astros during the day, sent pitcher Mike Cuellar to the Orioles along with minor league infielders Elijah Johnson and Enzo Hernandez. The Astros also got John Mason, a minor league outfielder.

The Astros also traded third baseman Bob Aspromonte to Atlanta for utility man Orlando "Marty" Martinez and sent outfielder Dick Simpson to the New York Yankees for relief pitcher Dooley Womack.

The Yanks also traded outfielder Andy Kosco to Los Angeles for pitcher Mike Kekich.

Blefary was Rookie-of-the-Year in 1965 when he hit .260 with 22 home runs, but last year he slipped to .200 with 15 homers while playing catcher and the outfield.

Aspromonte has a .256 lifetime batting average but slipped to .225 last year. Apparently the Astros felt that with the development of Doug Rader they could afford to let him go.



ANDY KOSCO

The Braves took him as insurance for Clete Boyer.

Martinez hit .230 in 113 games with the Braves last year; Simpson hit .197 with St. Louis and Houston; Womack was 3-7 with a 3.19 ERA for the Yankees; Kosco hit .240 with 15 homers and 19 RBI, and Kekich was 2-10 with a 3.91 ERA with the Dodgers.

The 29-year-old Mason played the outfield for Elmira of the Eastern League. Johnson hit .277 with 19 homers and 73 runs batted in for Oklahoma City of the Pacific Coast League. Hernandez batted .226 with Greensboro of the Carolina League.

Oak Glen Wrestlers Win Opening Match

Leopards Meet Beaver Falls

Midland Cage Tourney Slated For Dec. 27-28

The annual Midland Holiday Basketball Tournament will be held Dec. 27-28 at the new gym at Midland High.

In addition to the host Leopards, the teams involved will be defending champions New Castle, Beaver Falls and McKeesport. The pairings are McKeesport and New Castle in the opener, to be played 7:30 Dec. 27, and Beaver Falls and Midland in the nightcap, to be played at 9:15. Saturday night the consolation game is at 7 and the championship at 8:30.

In addition to the basketball, there will be a queens contest, with two girls from each school competing for the title of Holiday Tournament Queen. The preliminary judging will be done at halftime of the first game, the final judging will be done between games and the queen will be crowned following the second game on opening night. The queen will receive a jewelled tiara crown which she will keep.

The out - of - town teams with chaperones, will be quartered at the Willows Motel in Industry Friday and Saturday nights. There will be banquets at the Willows after both nights of play. In addition, all players and queen candidates will tour the Crucible mill on Saturday morning and be guests of the management for lunch.

An interesting sidelight to the tournament is that one of the officials, Joe Babish is the father of Melissa Babish of South Fayette, the recently crowned Miss Teen-Age America.

Quiet Settles On Jordanian Israeli Front

By The Associated Press

The Israeli-Jordanian front was reported quiet today after massive Israeli air strikes against Iraqi forces stationed in Jordan.

The war planes flew 50 miles inside Jordan Wednesday to attack Iraqi artillery emplacements, troops and ammunition dumps. It was the third Israeli air attack in Jordan this week.

One Israeli plane, a French-made Super Mystere fighter-bomber did not return, the Israeli army said.

A spokesman said the 22-year-old pilot died in a helicopter that lifted him from Jordanian territory after he had bailed out and then was shot.

Unconfirmed press reports in Jordan's capital, Amman, said the flier was killed in a gun battle with a Jordanian shepherd.

Radio Amman said six soldiers were killed and 14 wounded in the raid on the Irbid sector, which is 20 miles east of the Jordan River, and on the city of Al Marfaq, the site of an air base farther east.

Radio Baghdad quoted a claim by the Iraqi commander that seven Israeli planes were shot down.

Israeli sources believed the attack dealt a serious blow to the Iraqi military presence in Jordan, which is believed to have been strengthened recently by new armor and new artillery. The Israelis said Iraq has about 12,000 troops in Jordan.

An Israeli Foreign Ministry spokesman charged the Iraqis "are the main sources of aid to the Palestine terrorists with money, vehicles, weapons, training and manpower."

Egyptian President Gamal Abdel Nasser rejected a reported American seven-point plan for peace between Israel and Egypt. Nasser told the Egyptian National Congress: "We refuse a plan designed to find settlement with each Arab country separately. The honorable solution in my viewpoint is that Israel should not take a single inch from Arab territory."

The existence of such a plan was denied by the U.S. State Department, which said "it would be misleading to believe" the United States has any new formal plan for peace beyond its often-stated views.

Man Bound Over In Attack Case

A man identified as Jim Lovett of LaCroft was bound over to the grand jury today by Municipal Judge Samuel M. Chertoff on a charge he raped an East Liverpool housewife Oct. 24 during her husband's absence.

Lovett, who pleaded not guilty, was represented in the preliminary hearing by Bernard Fineman. His $1,500 bond was continued. Asst. Solicitor Robert L. Simpson prosecuted the charge. Lovett originally was arraigned on the charge Nov. 12. He was granted a continuance until Nov. 21 and then another continuance until today. The young woman filed the charge Nov. 6.

The woman testified that Lovett was a friend of her husband. She said he entered their home about 2 a. m. while she was watching television as she awaited her husband's return. She charged that Lovett turned off a lamp and the TV set and wrestled her to the floor. She said she struggled with him 30 minutes before the act was committed.

Two Persons Hurt In District Mishap

Two persons were injured in a mishap on Route 168 at Georgetown early today.

Mrs. Amy Picklesimer of Georgetown, the driver, was admitted to City Hospital at 2:10 a. m. with contusions of the forehead and a slight concussion. She is in "fair" condition.

Her brother-in-law, Peter M. Picklesimer, son of Darwin Picklesimer of Chester RD 1, a passenger, was treated for a laceration of the finger.

Area police had no report of the accident.

East End Man Jailed In Intoxication Case

An East End man was remanded to County Jail today in default of a fine of $100 and costs imposed by Municipal Judge Samuel M. Chertoff when he pleaded guilty to an intoxication charge filed under state law.

He is Harry B. Hurst of 503 Mulberry St., who was cited Wednesday at 11:22 p. m. on Mulberry St. by Patrolman Jerry F. Adkins.

Two others fined $25 and costs each on intoxication charges were ordered remanded to City Jail until the fines and costs are paid. They were identified by Clarence Marks of 1012 Railroad St., arrested Wednesday at 10:26 p. m.. on Mulberry St. by Patrolman Karl Samples, and Robert Higgins of RD 3, cited at 9:22 last night on E. 5th St. by Patrolman Dwight Garvey.

The word "agnostic," coined by Thomas Huxley in 1869, comes from the Greek and means "not knowing."

Astros Get Blefary; Kosco To Dodgers

SAN FRANCISCO (AP) — The baseball - trade market, which was slow in starting at the annual winter meetings, has heated up in a hurry.

Four deals were completed Wednesday—as many as had been made in the first two days of the meeting—and the most important result was the shipment of Curt Blefary, former rookie of the year, from Baltimore to Houston.

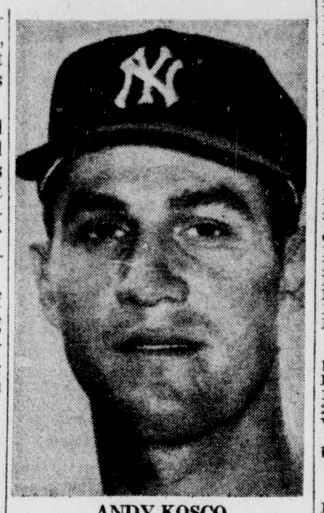
The five-player deal, one of three made by the Astros during the day, sent pitcher Mike Cuellar to the Orioles along with minor league infielders Elijah Johnson and Enzo Hernandez. The Astros also got John Mason, a minor league outfielder.

The Astros also traded third baseman Bob Aspromonte to Atlanta for utility man Orlando "Marty" Martinez and sent outfielder Dick Simpson to the New York Yankees for relief pitcher Dooley Womack.

The Yanks also traded outfielder Andy Kosco to Los Angeles for pitcher Mike Kekich.

Blefary was Rookie-of-the-Year in 1965 when he hit .260 with 22 home runs, but last year he slipped to .200 with 15 homers while playing catcher and the outfield.

Aspromonte has a .256 lifetime batting average but slipped to .225 last year. Apparently the Astros felt that with the development of Doug Rader they could afford to let him go.



ANDY KOSCO

The Braves took him as insurance for Clete Boyer.

Martinez hit .230 in 113 games with the Braves last year; Simpson hit .197 with St. Louis and Houston; Womack was 3-7 with a 3.19 ERA for the Yankees; Kosco hit .240 with 15 homers and 19 RBI, and Kekich was 2-10 with a 3.91 ERA with the Dodgers.

The 29-year-old Mason played the outfield for Elmira of the Eastern League. Johnson hit .277 with 19 homers and 73 runs batted in for Oklahoma City of the Pacific Coast League. Hernandez batted .226 with Greensboro of the Carolina League.

Leopards Meet Beaver Falls

Midland Cage Tourney Slated For Dec. 27-28

The annual Midland Holiday Basketball Tournament will be held Dec. 27-28 at the new gym at Midland High.

In addition to the host Leopards, the teams involved will be defending champions New Castle, Beaver Falls and McKeesport. The pairings are McKeesport and New Castle in the opener, to be played 7:30 Dec. 27, and Beaver Falls and Midland in the nightcap, to be played at 9:15. Saturday night the consolation game is at 7 and the championship at 8:30.

In addition to the basketball, there will be a queens contest, with two girls from each school competing for the title of Holiday Tournament Queen. The preliminary judging will be done at halftime of the first game, the final judging will be done between games and the queen will be crowned following the second game on opening night. The queen will receive a jewelled tiara crown which she will keep.

The out - of - town teams with chaperones, will be quartered at the Willows Motel in Industry Friday and Saturday nights. There will be banquets at the Willows after both nights of play. In addition, all players and queen candidates will tour the Crucible mill on Saturday morning and be guests of the management for lunch.

An interesting sidelight to the tournament is that one of the officials, Joe Babish is the father of Melissa Babish of South Fayette, the recently crowned Miss Teen-Age America.

Quiet Settles On Jordanian Israeli Front

By The Associated Press

The Israeli-Jordanian front was reported quiet today after massive Israeli air strikes against Iraqi forces stationed in Jordan.

The war planes flew 50 miles inside Jordan Wednesday to attack Iraqi artillery emplacements, troops and ammunition dumps. It was the third Israeli air attack in Jordan this week.

One Israeli plane, a French-made Super Mystere fighter-bomber did not return, the Israeli army said.

A spokesman said the 22-year-old pilot died in a helicopter that lifted him from Jordanian territory after he had bailed out and then was shot.

Unconfirmed press reports in Jordan's capital, Amman, said the flier was killed in a gun battle with a Jordanian shepherd.

Radio Amman said six soldiers were killed and 14 wounded in the raid on the Irbid sector, which is 20 miles east of the Jordan River, and on the city of Al Marfaq, the site of an air base farther east.

Radio Baghdad quoted a claim by the Iraqi commander that seven Israeli planes were shot down.

Israeli sources believed the attack dealt a serious blow to the Iraqi military presence in Jordan, which is believed to have been strengthened recently by new armor and new artillery. The Israelis said Iraq has about 12,000 troops in Jordan.

An Israeli Foreign Ministry spokesman charged the Iraqis "are the main sources of aid to the Palestine terrorists with money, vehicles, weapons, training and manpower."

Egyptian President Gamal Abdel Nasser rejected a reported American seven-point plan for peace between Israel and Egypt. Nasser told the Egyptian National Congress: "We refuse a plan designed to find settlement with each Arab country separately. The honorable solution in my viewpoint is that Israel should not take a single inch from Arab territory."

The existence of such a plan was denied by the U.S. State Department, which said "it would be misleading to believe" the United States has any new formal plan for peace beyond its often-stated views.

Man Bound Over In Attack Case

A man identified as Jim Lovett of LaCroft was bound over to the grand jury today by Municipal Judge Samuel M. Chertoff on a charge he raped an East Liverpool housewife Oct. 24 during her husband's absence.

Lovett, who pleaded not guilty, was represented in the preliminary hearing by Bernard Fineman. His $1,500 bond was continued. Asst. Solicitor Robert L. Simpson prosecuted the charge. Lovett originally was arraigned on the charge Nov. 12. He was granted a continuance until Nov. 21 and then another continuance until today. The young woman filed the charge Nov. 6.

The woman testified that Lovett was a friend of her husband. She said he entered their home about 2 a. m. while she was watching television as she awaited her husband's return. She charged that Lovett turned off a lamp and the TV set and wrestled her to the floor. She said she struggled with him 30 minutes before the act was committed.

Two Persons Hurt In District Mishap

Two persons were injured in a mishap on Route 168 at Georgetown early today.

Mrs. Amy Picklesimer of Georgetown, the driver, was admitted to City Hospital at 2:10 a. m. with contusions of the forehead and a slight concussion. She is in "fair" condition.

Her brother-in-law, Peter M. Picklesimer, son of Darwin Picklesimer of Chester RD 1, a passenger, was treated for a laceration of the finger.

Area police had no report of the accident.

East End Man Jailed In Intoxication Case

An East End man was remanded to County Jail today in default of a fine of $100 and costs imposed by Municipal Judge Samuel M. Chertoff when he pleaded guilty to an intoxication charge filed under state law.

He is Harry B. Hurst of 503 Mulberry St., who was cited Wednesday at 11:22 p. m. on Mulberry St. by Patrolman Jerry F. Adkins.

Two others fined $25 and costs each on intoxication charges were ordered remanded to City Jail until the fines and costs are paid. They were identified by Clarence Marks of 1012 Railroad St., arrested Wednesday at 10:26 p. m.. on Mulberry St. by Patrolman Karl Samples, and Robert Higgins of RD 3, cited at 9:22 last night on E. 5th St. by Patrolman Dwight Garvey.

The word "agnostic," coined by Thomas Huxley in 1869, comes from the Greek and means "not knowing."

Today In History

By The Associated Press

Today is Thursday, Dec. 5, the 340th day of 1968. There are 26 days left in the year.

On this date in 1933 prohibition ended in the United States as Utah became the 36th state to ratify the 21st amendment to the Constitution. The amendment repealed the 18th, which had been effective for nearly 14 years.

In 1782, the eighth American president, Martin Van Buren, was born in Kinderhook, N.Y.

In 1791, the Austrian composer, Wolfgang Mozart, died.

In 1832, President Andrew Jackson was re-elected, defeating Henry Clay.

In 1919, Colombian National Airways, said to be the oldest air lines in the Western Hemisphere, was formed.

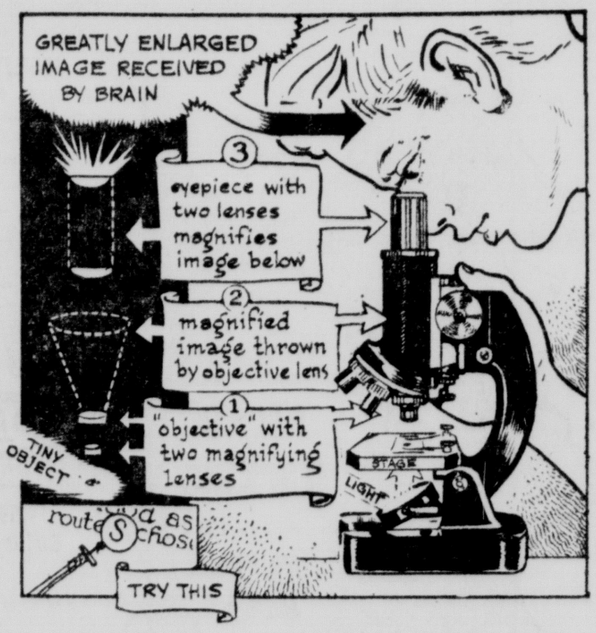
In 1941, Britain declared war on Finland, Romania and Hungary.

Ten years ago—The U.N. General Assembly adopted a Mexican resolution urging a peaceful, democratic solution to the Cyprus problem.

Five years ago—The Warren Commission began its investigation of the assassination of President John F. Kennedy.

One year ago — 264 persons were arrested as antiwar demonstrators attempted to close an armed forces induction center in New York City.

Junior Editors Quiz on MICROSCOPE



QUESTION: *How does a microscope work?*

* * * *

ANSWER: Take a bit of fine wire, wrap it around a nail and bend a neat quarter-inch circle beyond the nailhead. Then dip in water (glycerine is even better) and look at the letters on this page through the circle, which will be filled with fluid. The water will curve out on both sides of the wire, making a convex lens. As light rays come through, the curve bends them apart, showing things in a larger size. Microscopes use this same principle, only with more lenses. Notice the part of the microscope marked stage. This has a hole in it, through which light coming from a mirror underneath is reflected upward. Light comes through the tiny object you want to look at. The objective (1) then throws an enlarged image of this (2) up inside the tube. The eyepiece (3) enlarges this image again. Through the miracle of the eye, the image, now greatly enlarged, is passed inside your eyeball and into your brain, letting you see what the minute object on the stage really looks like. Using lenses in the way we have shown was invented by Zacharias Janssen in 1590.

(Lou Ann Fackleman of Edwardsburg, Mich., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)
